STATE PROBES RICHLAND LEGION FIRE

U. S. Ends 1949 With Red Ink

Spending Splurge Flayed

WASHINGTON — (UP) — The 1949 fiscal year ends today with the government on one of its greatest peacetime spending splurges and the United States treasury in the red.

Official deficit figures probably will be available Friday. Meantime, Sen. Harry F. Byrd, (D.-Va.), predicts there will be a red ink figure of $1,500,000,000 when the books close at midnight and that two years from now we will wind up between $6,000,000,000 and $8,000,000,000 in the hole.

Byrd means he thinks it will be that bad unless some changes are made, including the abandonment of several expensive administration programs and the adoption of an economy program throughout government.

The rate at which the government collects and spends the taxpayers' money is difficult to explain because the figures are so large.

CASH "ROLLS OUT"

In the current "U. S News and World Report," published here by David Lawrence, there is an illustration of how fast the money has been rolling out. With accompanying graphs, the magazine reported that the United States government has spent more in the past four years than it spent in all the first 152 years of our organized existence. The dates covered are 1789-1940, inclusive, and 1946-1949, also inclusive.

The spending figures were stated as follows: First 152 years, $167,000,000,000; past four years, $177,000,000,000.

Byrd and some others fear the nation will go broke if the trend continues. The alternatives now to economy in government are higher taxes or more borrowing.

More borrowing would increase the national debt, which is so high now that it costs nearly $5,500,000,000 every year just to pay the interest on it.

Girl Ordered To Hospital

CHICAGO — (AP) — In rapid-fire disposal of legal routine, the 19-year-old girl admirer who shot First Baseman Eddie Waitkus today was adjudged insane and committed to Kankakee State hospital.

The girl, Ruth Ann Steinhagen, appeared in felony court with the man she shot. After preliminary pleadings she was bound over to the grand jury.

A true bill was immediately voted and the indictment returned before Chief Justice James J. McDermott of criminal court. This was shortly after Waitkus, sitting in a wheel chair, confronted the girl for the first time since she shot him in a hotel room, June 15.

Her attorneys, Michael Brodkin and George Bieber, indicated they will file a petition stating the former typist "cannot cooperate with counsel and cannot understand the nature of the charge."

Before the indictment was returned Waitkus, Phillies' first baseman, and the girl appeared before Judge Matthew D. Hartigan of the felony court, who ordered her held to the grand jury and fixed her bond at $50,000.

Wants Married Women To Quit

COLUMBUS — (INS) — Rep Pat Dunn, the bachelor-Democrat who represents Tuscarawas county in the Ohio legislature, today called on married women employes of the state to resign so their jobs could go to others.

Dunn, whose perennial bill to bar the employment of both husband and wife by the state has passed the House but is tied up in the Senate, introduced a resolution asking women whose husbands are employed "to perform a laudable service to their state."

House Backs Girl

COLUMBUS — (AP) — The Ohio House of Representatives today adopted a reslution which, in effect, asked the Ohio American Legion auxiliary to send Joan Rankin to the Girls' Nation assembly in Washington.

Treatment Of Victims Delayed

Mansfield's General hospital has had no house doctor for 15 days, causing delays in treating accident and other emergency cases, Hospital Supt. Wayne A. Copeland said today.

Emergency cases must wait until the family doctor arrives. Ordinarily the house doctor, or resident physician, treats patients who arrive without the knowledge of their family physician.

Copeland said he is searching for a young doctor, who has served his year of interneship, to fill the post of house doctor. The hospital does not have any internes.

Meanwhile Copeland asked that the family doctor be notified immediately if a sudden accident or illness should make it necessary to take the victim to the hospital. If the family doctor is called immediately he probably will arrive as soon as the patient does, Copeland said.

Mansfield doctors belonging to the Physicians and Surgeons Exchange leave the name of a substitute doctor at the exchange to take over for them in case they can't be reached or find it impossible to reach the hospital in time.

Each staff doctor at General hospital serves as a staff service member. The staff service provides that each member will serve for a month on a rotating basis as an emergency doctor any time he is in the hospital.

This, however, does not provide an ample substitute for a house doctor, since the staff doctors spend only a few hours a day in the hospital, Copeland pointed out. The house doctor, on the other hand, lives at the hospital and is on call at all times.

The staff service member designated for emergency service will treat any emergency case, whether the patient is his own or not, but he is available only when he is in the hospital on business.

Copeland admits that it will be quite a job to locate a new house doctor. The last house doctor at the hospital entered the army early in June and both the army and navy are seeking young doctors.

The house doctor's job pays $125 a month, with board and room provided.

Bar Operates Licenseless For One Year

CLEVELAND — (INS) — Patrons of Agnes & Hill's beer tavern on Cleveland's west side will have to go elsewhere today.

State liquor agents and Cleveland police raided and closed the tavern yesterday in what they called one of their greatest "hauls" of recent years — an estimated two tons of beer and wine.

The west side spot had allegedly been operating openly for the last year without a liquor permit. Police arrested one of the proprietors, William Kocho, 30, and charged him with illegal sales and with being keeper of a place where intoxicating beverages were illegally sold.

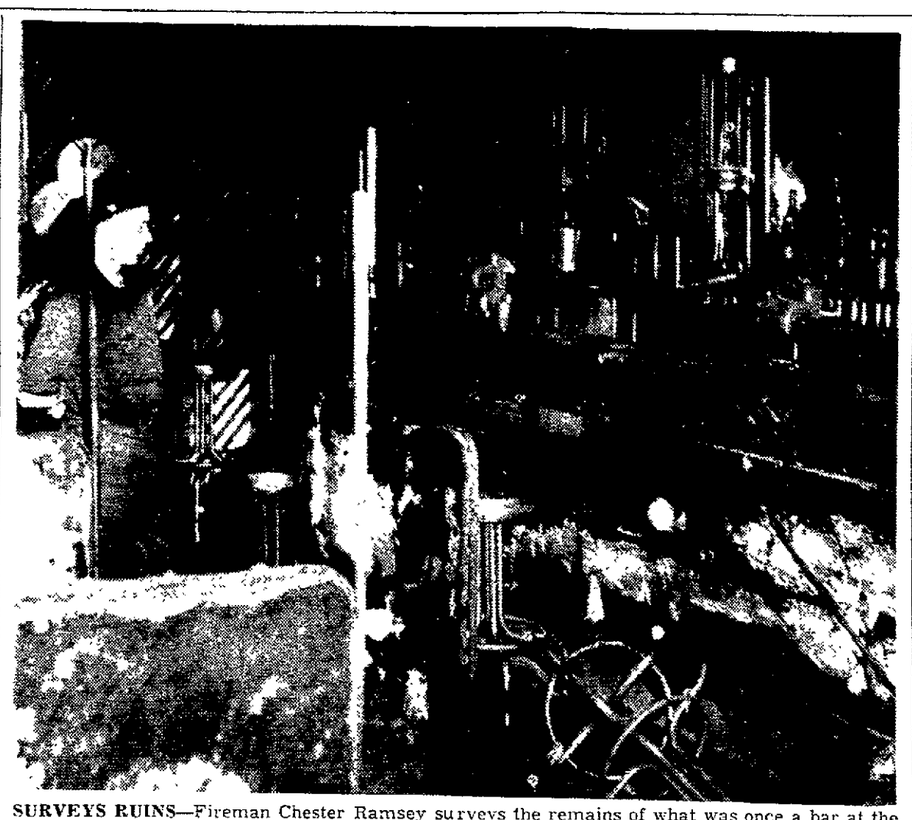
OK Taft Labor Bill

WASHINGTON — (AP) — The Senate today adopted the second and last part of the labor bill sponsored by Senator Taft (R-Ohio).



SURVEYS RUINS—Fireman Chester Ramsey surveys the remains of what was once a bar at the American Legion Post 72, 217½ North Diamond street, after fire gutted the upstairs club rooms early this morning. A fireman was posted on guard all morning to keep photographers, reporters and visitrs from the building as the ruins were probed. Cause of the fire is undetermined at present.

Heat Relief Hopes Slight

Scattered Afternoon Showers Seen Likely

The weatherman offered faint hope today that some relief for the current heat wave is in sight. Mansfielders have been sweltering for 13 days now.

Forecaster C. George Andrus at Cleveland, said a cool, dry air mass is moving eastward from the far northwest and should alleviate the hot and humid conditions somewhat.

But, here's the catch, the cooler system may be "played out" by the time it reaches Mansfield.

So while Mansfielders wait for relief they'll be served up another dish of hot and humid weather today and tomorrow. Widely scattered thundershowers are expected each afternoon.

The weatherman said that when June figures are totalled tonight, they probably will show that this month was one of the hottest Junes in Ohio Weather Bureau history.

Temperatures have climbed above the 80-mark 24 days of the month, so far, Andrus said.

Temperatures in the 90's were expected today and tomorrow, and possibly through the long Fourth of July week end.

A month-long drought is reaching the "disaster" stage in southern New England, a Massachusetts Farm Bureau Federation official said today.

A hot, rainless June over the area, as well as in parts of New York and New Jersey, has damaged farm, vegetable and fruit crops.

Twenty per cent of the hay crop in southern New England has been lost because of the dry weather, said Carleton L. Pickett, head of the federation. There appeared no immediate prospect of heavy rain in the dry-stricken areas.

Yesterday's high in Mansfield was 88 degrees, recorded at Municipal airport at 1:30 p. m. There was 1.11 inches of rainfall in the 24 hours ended at 7:30 a. m.

Bury Victim, Seek Slayer

PRESTONSBURG, Ky. —(UP) —Funeral services were to be held at 2 p. m. today for pretty 16-year-old Muriel Baldridge, who was brutally slain Monday night.

The body of the popular high school cheerleader was found early Tuesday morning under a bridge near the Big Sandy river, about 200 yards from her home. She had been struck on the head five times.

Meanwhile, the sheriff's office said it planned to call in several more town folks today to question them in the slaying. The office declined to identify those to be questioned.

Accuse Bishops

PRAGUE, Czechoslovakia — (UP) — The Slovak communist organ Pravda accused Catholic bishops in eastern Czechoslovakia today of collaborating with the nazis during the war.

'Norkie' Loyer Proud of Flowers

Petunias Brighten Watchman's 'Yard'

By MARGUERITE MILLER

There's a patch of pink and white petunias and cornflowers amid the bricks and concrete at the foot of North Diamond street hill.

That's Norkie Loyer's garden—a triangular patch behind the watchman's tiny "shack" and not six feet from where the Erie trains whiz by.

Loyer, who boasts 23 years "on the railroad," keeps his spade and hand trowel for gardening right at his shack. When the traffic slackens on the rails he's right out there fussing with his flowers.

"Oh, they're better than weeds," says Loyer in a brusque tone. But then he quickly adds that he's going to have zinnias in the fall which will keep the pretty little spot colorful until frost comes.

Loyer isn't the kind to take credit for all of it. He'll tell you the petunias were there when he came to the crossing about two and a half years ago. But it was his idea to add to the variety.

"Got the idea from Alvin Faust over at Galion where I used to work. Al had flowers all over the place—even down along the tracks, and boy, he'd have a fit if anybody even looked at those flowers," Loyer chuckled.

"NO WORK TO IT"

"Aw, there's no work to it and it gives me something to do. That hot week in May really brought out those petunias," he added, pointing to the luxuriant growth. "Had to thin them out this spring and give some away, they got so thick.

"You know, the hotter and drier it is, the better petunias do. Most people make the mistake of watering them too much."

There's a little brown-eyed susan poking its head up among the petunias and the commonly-called "fire bushes" form a little border around the garden.

"Had two hills of tomatoes in there last summer, but someone stole them."

Since then Loyer's stuck to his flowers.

Loyer, who is "past 20" and unofficially 50, makes his home at the Creamer hotel. His real name? Norkie will do, he says, although he confided that it was Norris.

Reds Hail 'Triumph'

MOSCOW — (INS) — Soviet Foreign Minister Andrei Y. Vishinsky today hailed the results of the Paris big four conference as a triumph for Russian policy which forced the United States, Britain, and France "to change their political line."

Vishinsky, in a 4200 - word interview with the Soviet press, said, however, that both east and west made concessions at the Paris conference.

He added:

"I think that in the future, too, it will be necessary to make certain mutual concessions compatible with the principles of the Potsdam agreement."

He asserted that the communique issued by the four powers proved that the foreign ministers "adopted the basic ideas and proposals submitted by the Soviet delegation during the first days of the council's work."

Health Official Ends Long Career

COLUMBUS — (AP) — Ohio retired its oldest point-of-service employe today.

James E. Bauman, who will be 79 Nov. 2, and who has been in the state public health service since 1892, decided to call it a career.

He held executive posts in the department since 1911, and had been assistant director since 1921. Six times, between appointments, he had been director — the only non-doctor ever to hold the position.

Two months ago he and Mrs. Bauman celebrated their 53rd wedding anniversary.

Police Killed Moore

Victim Caught In Crossfire

Solomon W. Moore, 40, of 136½ North Adams street, was killed Monday night by a bullet from a police patrolman's gun, Prosecutor Harold Lutz said this afternoon.

At the same time Lutz said he was filing a charge of shooting with intent to kill against Eddie Moore, 39, Miller street.

The prosecutor said Solomon Moore was fatally shot when a patrolman fired at Eddie Moore. The Moores are not related.

Patrolmen had been called to the Solomon Moore home a few minutes before the fatal shooting to settle an argument between the two Moores.

Solomon Moore, shot in the left chest, died in his backyard. The gun which the other Moore is believed to have used was found behind a house at 142 North Adams street.

Lutz said investigation showed the bullet which killed Moore was not fired from the gun found in the backyard but from the pistol carried by either Patrolman Charles Letizia or Patrolman Joseph Greving. Lutz did not indicate which of the officers fired the shot.

START TO LEAVE

As the policemen were leaving the Moore apartment at 136½ North Adams they stopped off downstairs to question occupants about the argument between the two Moores.

The dispute between the two men was resumed outside and the officers rushed to the scene. One of them fired in the dark at a figure near 142 North Adams street after he heard a man say: "If you come one foot closer I'll kill you."

After the shot one of the officers stepped forward and saw two men, one of whom was Solomon Moore, who arose from a kneeling position near a barrel, and started toward the officers, speaking incoherently.

Eddie Moore was then sighted and ordered to put up his hands. Officers said as he did so he fell backwards onto a small bench in the yard. Eddie Moore was searched but no weapons were found.

In the meantime, Solomon Moore had collapsed in the backyard.

The bullet fired from Eddie Moore's gun was found near the barrel at which Solomon Moore was seen kneeling by officers.

Controls To Be Lifted

WASHINGTON (UP)— A nationwide survey indicated today that most merchants and lenders will not ease credit terms when government controls on installment buying expire at midnight.

Some used car dealers, however, said stiff competition may force them into accepting lower downpayments and longer payment periods.

The law under which the federal reserve board controls consumer credit expires tonight along with a handful of other anti-inflation measures. This will leave stores and finance companies free to impose whatever credit terms they see fit.

OK AID TO KOREA

WASHINGTON — (INS)— The House Foreign Affairs committeen today approved legislation authorizing 150 million dollars in economic aid to South Korea.

Judy Coplon Guilty In Spy Case

Faces New Trial In New York

WASHINGTON —(UP)— Judith Coplon was found guilty today by a federal court jury on two counts of stealing government secrets and intending to pass them on to Russia.

She faces a maximum penalty of 13 years in prison and $12,000 fine.

Miss Coplon took the verdict without any immediate show of emotion. She was standing facing the eight men and four women jurors when the foreman, Andrew H. Norford, telephone company employe, announced the verdict.

Her chin was high but her face was pale. When she entered the courtroom a few minutes earlier she had shown the first nervousness that was apparent since the start of her 10-week trial.

"I don't know whether I can take it or not," she told her lawyer, Archibald Palmer, as she took a seat in the court room.

Her recently widowed mother, Mrs. Rebecca Coplon, was not in the courtroom when the jury returned its verdict.

As the jury entered, a bailiff said solemnly:

"The defendant will rise."

The tiny girl in a simple green plaid sports dress stood up and faced the jury some 20 feet away.

Court Clerk Paul A. Roser then asked the foreman if they had arrived at a verdict.

"We have," Norford replied.

"What say you, ladies and gentlemen of the jury, as to count one?"

That was the espionage count —intent to pass secrets to Russia. The jury had been sorely puzzled over the meaning of that word "intent."

"Guilty," Norford said in a clear voice.

"What say you as to count two?" Roser asked in a matter-of-fact voice.

That was the lesser charge of merely stealing secret papers from the Justice department, where she worked.

"Guilty," Norford said again.

With these words the former government girl heard herself convicted by a jury "of her peers" of spying for Russia.

She now faces trial in New York on other espionage charges with Valentin A. Gubitchev, the married Russian engineer, whom she said she loved.

Court Orders Wedding Gift

EAST LIVERPOOL — (UP) — Violation of an anti - noise ordinance paid dividends today to a pair of newlyweds who will receive $28 gift from the offenders.

The new man and wife, Mr. and Mrs. Paul Lipp jr., were riding in a truck when four youths escorting them in automobiles and blowing their horns in the traditional way, were arrested for violating the anti - noise ordinance.

Judge Frank E. Grosshans ordered the serenaders to post $7 each toward a wedding present and deputized the men to escort the couple to a court party Friday night.

Seeks To Crush DuPont Empire

WASHINGTON — (AP) — Attorney General Tom Clark today filed suit to break up the DuPont industrial empire.

The attorney general announced that the action, under the Sherman and Clayton anti-trust laws, was filed this morning in the U. S. District Court of Chicago.

Among the major demands of the civil suit are a divorcement of the E. I. Du Pont De Nemours company, of Wilmington, Del., from General Motors corporation of Detroit.

North-End Club Badly Damaged

Post Home Hit By Blaze

Fire Chief L. J. Steele today is investigating a fire of mysterious origin which caused heavy damage to the interior of the clubrooms of Richland Post 72, American Legion, 217½ North Diamond street, early this morning.

Steele said origin of the fire has not been determined, but a guard has been stationed at the entrance to the clubrooms and the state fire marshal has been called in to assist in the investigation.

Firemen from Central and No. 2 stations answered the call to the Legion post at 2:35 a. m. today.

Firemen said the fire was confined to the second floor of the building where the clubrooms are located. All furniture was destroyed by the flames and there was considerable damage to the interior, according to firemen.

GOODS DAMAGED

Edward O. Delp, owner of the building, who operates the Mansfield Oxygen - Acetylene Supply company on the first floor of the structure, said today he had not been able to determine the amount of damage. He said some merchandise in his store was damaged and the front end of the second floor was almost completely gutted by the fire.

Officers of the Legion post could not be reached for comment this morning.

W. Chris Drye, manager of Richland post, was out of the city today and could not be reached for comment on the fire.

Firemen said there was no one in the building when they arrived. The alarm was called in by a boy whose identity was not learned by firemen.

Seek Killer Of Farmer

SPRINGFIELD —(AP)— Clark county authorities began a search for a mystery killer today in the slaying of a 24-year-old farmer.

John Calhoun was wounded fatally while milking cows in his barn yesterday. But witnesses did not hear a shot and no trace of the killer was found.

Coroner Austin Richards said the Calhoun farm is in the southeastern section of the county near the village of Selma.

Calhoun was milking in the barn, Richards said, while his 12-year-old nephew, Thomas Ogle, was playing in a corn crib only about 50 yards away. Thomas told authorities he saw his uncle stagger from the barn holding his chest.

Calhoun cried, "I've been shot," the boy reported.

The farmer stumbled and collapsed in the barnyard. Thomas ran to the house and called Calhoun's wife, Margaret.

They put Calhoun in an automobile and drove to the nearby farm home of the victim's father, George Calhoun. A physician was summoned and Calhoun was pronounced dead.

See Progress In ECA Talks

PARIS — (UP) — Delegates of the Marshall plan countries made some progress today toward a compromise settlement of an Anglo-American economic dispute which threatened their dollar-aided recovery program.

A committee of financial experts met for two hours this morning to try to work out a compromise. Afterward Sir. Stafford Cripps, chancellor of the exchequer, said "everything is going very nicely."

Other delegates said progress was slower than had been hoped for but the group seemed to be well on its way toward an agreement.

The group decided to meet again later and to postpone until still later a meeting of the full 19-nation council of the organization for European Economic cooperation.

Contract Expires

WHITE SULPHUR SPRINGS, W. Va. — (AP) — The Contract between John L. Lewis United Mine Workers and the nation's soft coal operators expires at midnight tonight without a sign of a new one to take its place.

"You Look Like a June Bride"

Aged Romeo Recharms Pretty Divorcee

CHICAGO—(INS)—The Chicago Herald-American said today in a copyright story that Mrs. Pauline Langton was charmed all over again by Sigmund Engel in a jail rendezvous and announced her intention of standing by "my loving husband."

Staff writer Buddy McHugh and Mike Meredith said the 39-year-old New York divorcee rushed into Engel's arms "like a young war bride welcoming home a soldier husband on furlough."

Mrs. Langton previously had obtained a New York grand jury indictment against Engel and charged the "knave of hearts" took $50,000 of her jewels following their marriage in Alexandria, Va., June 14.

The reconciliation scene took place late yesterday in the county jail visitors' room. There Mrs. Langton hugged, kissed and made up with her Napoleon-sized Lothario. She also heard him say "I love you."

Gently, the newspaper said, the 74-year-old Romeo took both her hands and said softly:

"How beautiful you are today. They say June is the month of brides. You look like a June bride."

Pauling reportedly glided forward and they embraced, cheek to cheek, while a jail attendant whispered.

"If anyone told me this, I'd say he was nuts. But I'm seein' it."

Mrs. Langton cooed happily:

"To think, out of the thousand and one women in his life, I'm the only one he ever really loved.

"He's going to have my jewels returned to me when I get back to New York. But I'm going to stay in Chicago and stand right by him. No one is going to push my Sam around."

When she left, Mrs. Langton told Engel's guards:

"Be sure to give my darling a lot of orange juice. He likes that. And don't forget about the milk. He likes two or three glasses a day.

Nab Suspect In Slaying

CINCINNATI — (AP) — A man identified by police here as the James Stewart wanted in connection with the slaying of Miss Eleanor Gifford at Athens last Jan 3, was taken into custody yesterday.

Acting Chief of Detectives Pat Hayes said the 38-year-old man denied any connection with the death of the 52-year - old - Episcopal Church worker.

Grover Rawlins recently pleaded guilty to participating in the robbery-slaying of the woman and was sentenced to life imprisonment

Harry Dodds jr, 20 is on trial in Athens on a murder charge in the same case

Stewart, who was indicted with Rawlins and Dodds, was described as a Columbus bartender

City Detectives George Galbreath and Bernard Creutzinger and State Police Sgt. Max Lambert and Officer Joseph Seryak arrested the man they said was Stewart

He was taken into custody when he called at a residence to pick up a check, they told reporters.

Indian Rally Stuns Tigers In Finale

CLEVELAND —(AP)— Cleveland's Indians still clung to their third-place perch today, thanks to an amazing ninth-inning rally that left the fans and even the players stunned.

The six-run splurge last night gave the Tribe an 8-to-7 verdict and a split with Detroit in their twilight-night doubleheader. The Tigers won the first game, 4 to 0.

Both clubs are six and a half games behind the front running New York Yankees, but Cleveland has a slim .003 percentage margin over Detroit.

A single game this afternoon will conclude the four-game series. The Tribe's Early Wynn, who has a 4-0 record, will oppose Art Houtteman, a young right-hander. Houtteman has three wins and two losses.

The second game was all ready to be written last night when the Indians changed the story. The score was 7 to 2 in favor of Detroit, it was the last of the ninth and more than half of the 65,243 spectators had either left or were leaving the park.

Dale Mitchell singled to open the inning, but this drew only mild applause. Ray Boone then popped out, Manager Lou Boudreau walked and Larry Doby singled Mitchell home.

Joe Gordon flied to center field and the rest of the fans began to get to their feet. But then the Indians went to work. Bob Kennedy walked to fill the sacks and Ted Gray was replaced on the mound by Dizzy Trout.

Mickey Vernon beat out an infield bounder that scored Boudreau, Thurman Tucker batted for Mike Tresh and walked, and Doby was forced home. With the sacks still loaded, Bob Lemon batted for Steve Gromek and doubled, scoring Kennedy and Vernon.

And as Pat Mullin, the Tigers' left fielder, fumbled the ball, Tucker streaked home for the winning run.

Steve Gromek, who pitched the last inning, was credited with the victory. Bob Feller had opened for the Tribe but gave way to Al Benton in the fifth when the Tigers scored seven runs. Frank Papish also pitched two innings.

In the opener, Hal Newhouser blanked the Tribesmen with six hits to gain his 10th victory of the season. Gene Bearden, who lasted three innings, suffered the loss, his sixth against five victories.

Isaly, DAV Jumble League Standings

Isaly Dairy and Disabled American Veterans messed up the standings in the "fast" American Softball league last night.

The Dairy youngsters knocked favored Liederkranz off its undefeated perch rather convincingly, 4 to 2, behind the steady four-hit pitching of Charles Bauer. However, Liederkranz remained in first place with four wins and one defeat as the Veterans of Foreign Wars and Farm Tools were rained out.

VFW and Sons of Herman had a chance to knot Liederkranz for the top rung. The Hermans fell before Wayne Hough and DAV, 6 to 4. Hough permitted only four hits and did not walk a man.

Liederkranz took a 2-to-0 lead on the Dairymen with single tallies in the second and fourth heats. The Isaly bats broke Kenny Windsor's spell in the fifth when three runs crossed the plate. The youngsters added the fourth in the sixth. Al Bechtler, Isaly, was the top hitter with a double and home run.

Seven Gorman-Rupp players were in the Liederkranz lineup.

Insurance 9 Wins Easily

Western and Southern Insurance took over third place in the Recreation softball league last night by walloping the News-Journal, 16-5, at Farm Tool field.

Western and Southern now has a 3 and 2 record as compared to 3 and 1 by Martin Steel and Leedy Electric, the two league leaders.

Big Bat Blasts

By the Associated Press

Bob Brady's big bat stroked Minneapolis to a double victory over Toledo last night, 14 to 3, and 10 to 3. The veteran catcher blasted four hits in the opener and then smashed three home runs in his last three plate appearances in the nightcap.

Charles Gets Fight Offer

JERSEY CITY, N. J. — (INS) — Ezzard Charles, heavyweight champion of the National Boxing association, today was offered $100,000 to lay his title on the line in a match with the veteran Pat Comiskey.

The offer was made by Jersey City promoter Frank Paula on behalf of a local group of businessmen.

Paula suggested Roosevelt stadium in Jersey City and Thursday night, Sept. 22, as the site and date of the proposed bout. He said he will post the $100,000 check with NBA commissioner Abe J. Greene.

Comiskey, who makes his home in Paterson, N. J., has been fighting professionally for 11 years.

Ted Williams In Poll Lead

CHICAGO — (AP) — Ted Williams, Boston Red Sox slugging outfielder, held the individual vote getting honors today as workers continued to tabulate returns in the all-star poll which closed last midnight.

Final returns of the poll, which will decide the starting lineups for the national and American leagues in the 16th annual all-star game in Brooklyn July 12, will be announced later.

Williams currently holds an advantage of 115,512 over Jackie Robinson, Brooklyn's negro second baseman and National league batting star. Williams has 1,746-896 votes to Robinson's 1,-631,384.

Heavy 'Title' Go Set For London

LONDON — (UP) — London fight fans received assurances today that the Bruce Woodcock-Lee Savold fight for the British version of the world's heavyweight championship will be staged at White City stadium, Sept. 6.

Promoter Jack Solomons changed his mind about transferring the fight to the U. S. when it was learned that London authorities were considering a plan to increase the capacity of the London stadium from 46,000 to 60,000.

400 Horses Set For Little Grand Racing

MARION — Between 400 and 450 horses are being readied for the start of Marion's 1949 Little Grand Circuit harness races which begin Monday, July 4th, and continue through July 23.

Frank M. Foster, vice-president of the Marion Matinee Club and general manager of the Little Grand Circuit, reports the overflow will be accommodated at neighboring tracks. Some of the standard breds will be quartered at Mt. Gilead, Richwood, Delaware and Ashley and brought to Marion only on the days they are scheduled to race.

Of the more than 400 horses expected here, nearly 160 are scheduled to appear in one or more of the 18 stakes which spice the prolonged sulky season.

Horsemen will vie for more than $70,000 in purses during the 19-session stand. Of this amount, $18,000 will be in the form of stakes and approximately $53,000 in overnight purses.

There will be eight races at every session and all racing, except the Fourth of July afternoon opener, will be at night. For the gala Independence Day opener, Foster has arranged a bulging doubleheader which is expected to draw thousands of holiday visitors to Marion.

The Little Grand, long recognized as one of the nation's standout spring meetings, will again offer all of the attractions of raceway promotion — dash racing, parimutuel betting, mobile starting gate, photo-finish results and all the other trimmings of harness racing's big wheel.

Jim Hegarty Wins Driving Contest

Westbrook won the driving contest staged at the Richland Driving range last night as Jim Hegarty and team-mates Carl Wiseman and Bob Moorhead split a dozen balls as the prize booty.

Jim Musille brought Coolridge in second with a 290-yard drive while Ted Etzel had the best drive for Possum Run. Joe Mayer and Pete Thoma also competed for Coolridge and Bernie Mathias and Red Dillon for Possum Run.

Joe Wells Wins Seniors Tourney

RYE, N. Y. — (UP) — Sixty-year-old Joseph M. Wells of Newell, W. Va., shot a 75 at the Apawamis country club yesterday to win the national senior golf championship with a score of 145 for 36 holes

Wells, playing in the tournament for the sixth time, won by three strokes over Brackett B. Fernald of Providence, R. I.

Game Rained Out

The Penn Auto-Sporting Goods baseball game last night with the Lexington Merchants at Lexington was rained out.

GI Cashes In On Pacific Isle Jewelry

LYONS, KAN. —(UP)— Those war years are paying dividends now for Thomas L. Davis.

Davis spent some time on Manos Island. He looked for souvenirs to send home but decided he could make better stuff than the natives.

So, with metal from ammunition boxes and island mother-of-pearl, Davis fashioned a pearly inlay bracelet. His tools were a file, tin snips and a nail.

His buddies admired his work so much they asked him to turn out souvenirs for them, too.

When he returned to his home town, he set up a shop and invented dies and machines to mass produce the articles he's made on Manos. He imports mother-of-pearl from Tahiti and combines it with either stainless steel, yellow, rose or white gold to produce jewelry of unusual simplicity and beauty.

Now his shop is turning out thousands of bracelets, watchbands and key chains.

Olmo Hurts Foot In Slide Attempt

PHILADELPHIA — (AP) — Louis Olmo, Brooklyn outfielder recently reinstated after jumping to the Mexican league three years ago, rejoined the Dodgers' lineup last night — only to sustain a foot injury that may keep him inactive for a week.

Olmo sprained a tendon in his foot sliding into second as Brooklyn defeated the Philadelphia Phillies 5-1.

Mathias Retains Decathlon Crown

TULARE, Calif. — (AP) — Bob Mathias retained his national decathlon championship last night before 6,000 cheering hometown admirers.

Mathias scored 7556 points to win the trophy again and protect his prestige as the 1948 Olympic games winner. Irving Mondschein of New York was second with 7044 points.

HERE is a pleasant little game that will give you a message every day. It is a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add 3. The result is your key number. Start at the upper left-hand corner of the rectangle and check every one of your key numbers, left to right. Then read the message the letters under the checked figures give you.

Refugees Bide Time On Pacific Islands

By JOHN YENCH

TUBABAO, PHILIPPINES — (AP) — On this coconut and coral island, John Doe is a kind of modern Robinson Crusoe.

Here the United Nations operates a camp for 5,076 White Russian refugees from communist China. Here the anti-Soviet Slavs have carved out a home while, like Daniel DeFoe's hero, they await the ship to carry them to civilization.

While plans for resettling them are mulled in remote capitals, refugees of 19 national groups have built the image of a modern town.

They have cleared four million square feet of jungle, built hospitals, churches and a power plant, strung an electric network and laid down a water system. They are building a tuberculosis sanitorium and are putting up a regular school building among other solid works.

The announcement last month that the camp would close June 30 (an extension of an earlier May 30 deadline) slowed work on projects for a time. Captain James Leland Combs of Santa Cruz, Calif., International Refugee organization camp boss, says now the terminal date is "subject to modification."

The many reports, sometimes conflicting, that reach the refugees seem to have inured them to discouragement. Their philosophy now may be summed up as: "Ready bags as if resettlement calls tomorrow; work as if it is Tubabao forever."

Now it's a kind of half-steam ahead while the fate of the camp is being decided. Foremost in every mind is where the IRO will resettle them.

A French mission has come and gone. Seventy-six were approved for resettlement in French lands but no visas have yet been issued.

An Australian mission of four men continues to process applicants at Tubabao. Out of 1,800 that applied, 341 finally sailed for Sydney. Dutch Guiana has place for 36 — mechanics, electricians, bricklayers and one dressmaker. Four applied for the last - named post.

Ecuador is unconditionally allowing immigrants provided they deposit $500 (U. S.) in the Banquo Central Del Ecuador. This has suited 286 of the campers. It may have attracted others but they had no money.

Paraguay's two - man mission is expected to start soon to screen 500 agriculturists' for entry. Successful candidates will be granted about 60 acres of land, support for three months and loans for machinery and dwelling purchases. Hardy Russians who trekked two years from Soviet-dominated Sinkiang, China's far northwest province, are considered likely to make the grade.

Chile and Brazil, both high on the list of campers' preferences, are considering resettlement programs. Argentina, where 1,500 refugees have said they want to go, looks closed. An IRO official complains President Juan Peron has been subjected to Soviet pressure to cancel plans for entry of White Russians.

To some 3,000 in the camp, resettlement schemes so far offered have no attraction. Three - fifths of them want to go to the United States. They hope Congress will pass a bill to admit them as long-standing refugees from Soviet rule.

To the 20 per cent, of the campers who are over 50 years old and the 300 suffering from tuberculosis, the United States represents an only hope of refuge. No other countries are willing to give them haven.

Rome Bans Skyscrapers

ROME — (UP) — Rome, the Eternal City of the Caesars and the Popes, will never permit skyscrapers to take away its light and mar its beauty.

The superior council of public works examined a ruling of the Rome municipal housing authorities with regard to new construction and approved regulations limiting the size or houses or office buildings.

First of all, the council agreed that every housing project must be studied and given the opinion of the department of five arts and antiquities before any work is started. For the purpose, the city has been divided into three zones, the suburban, the downtown and the central part.

In the suburban area, building permits will be easy and houses may reach a maximum height of 99 feet — far from skyscraper status. In downtown Rome, the fine arts commission must give a special permit before any building is done and no structure can be over 89 feet tall.

For new construction in the "most central zone," the old rigid laws which retain the antiquity of Rome are still in effect. Not a stone can be moved in the heart of the city without the approval of at least six different government the semi - government bodies — and the public works council said it did not expect many applications.

Presented Gavel

BUCYRUS — A delegation of 23 Bucyrus Kiwanians went to Mt. Vernon Tuesday night when the traveling gavel was presented to Frank Bohn, president of the Mt. Vernon Kiwanis club, by John R. Zachardy, president of the local club. The gavel was brought here two weeks ago from Marion.

Salary Increase Virtually Assured for State Employes

Senate Gets Bill After House OK

Reclassifying Ohio Workers

COLUMBUS — (UP) — A cost-of-living pay formula and wage increases totaling up to $4,900,000 a year effective next January today were approved by the Ohio House of Representatives for the state's 26,000 employes.

The bill was passed and sent to the Senate for consideration by a vote of 123 to 2 as an emergency measure. It provides for pay equalization and regrouping of jobs to reduce the number of classifications from 1600 to 800.

When signed by Gov. Frank J. Lausche the bill will freeze present salaries of state employes except when changes are ordered by the State Civil Service commission. The salaries would be unfrozen on Jan. 1, 1950, when the commission finishes its job of reclassification of workers.

The cost-of-living formula is based on the January consumer price index of the federal government. The January index would be ascertained every two years starting in March, 1951, and cost-of-living adjustments made if the index changed warranted.

Three salary adjustments could be make hiking salaries and three could be made to reduce wages under the formula. Ohio is the second state to consider the formula of pay for public employes — Massachusetts already has approved the plan.

Democratic members of the lower house attempted to hold off salary increases for six months longer than the effective date of Jan. 1, 1950, contained in the bill. The leadership contended sufficient money was not available to increase the salaries for the full period.

Majority floor leader, A. G Lancione, D, Belmont, called the wage increases on January 1 "foolhardy, hazardous and imprudent."

He said the state finance director had informed him that only enough money was granted in the budget to pay the increases for one year.

Sees Hope For British

Economic Crisis Solution Hinted

WASHINGTON — (INS) — Secretary of State Acheson declared Wednesday that he was hopeful of a solution of the British economic crisis which is expected to reach a climax early next month.

He said he is sure that the combined statesmanship of the western powers would be able to work out the problem. He added, however, that it would not be helpful for this time to hold any public discussion of the matter.

Acheson said that when Secretary of the Treasury Snyder visits treasury establishments in Europe in the near future he will be accompanied only by treasury department personnel.

He added that if Snyder wishes to discuss the British problem while in London he will be free to do so.

Study Proves Fish Are Dumb

DUBLIN, Va. — (UP) — Studies at Claytor Lake, where fisherman are allowed to catch as many as they want during the late spring providing they throw them all back, have proved that a fish isn't very smart.

Some fish, particularly spotted bass, get caught two or three times before they wise up.

Dean Roseberry, who is in charge of the fish, survey in the state park lake, defends the spotted bass He doesn't think they are any more ignorant than other species The reason they are caught more often, he says, may be because the spotted bass roam over the lake more than other fish

Hoover Flays Dangers of Power In Armed Unity Act

WASHINGTON — (AP) — Herbert Hoover said yesterday it would be "dangerous to the country" to create a chairman for the joint chiefs of staff of the armed services as proposed by the Truman administration

Such an office, the former President declared, would "place too much power in any military officer."

Hoover testified before the House Armed Services committee on legislation to amend the Armed Services Unification law of 1947 Generally, the measure is aimed to give more power to the secretary of defense and iron out "bugs" in the two-year-old law.

Backers have contended the proposed revisions will permit savings of many millions of dollars The Senate passed the legislation May 26

Hoover endorsed the general purposes of the bill but strongly opposed a section which would create a chairman for the joint chiefs of staff.

Each of the armed services is represented on the joint chiefs by its chief of staff. Under the present arrangement, each is equal in theory and they try to reach their decisions by mutual agreement.

Hoover said:

"I believe Secretary Forrestal's death was largely a result of his attempts to secure coordination (of the services) by persuasion He didn't have the authority to actually impose coordination."

Hoover said the commission on reorganization of the government, which he headed last year, though a chairman for the joint chiefs should act only as a presiding officer and opposed an office of the authority proposed in the legislation.

"With such rank and power his voice to the country can over-ride the responsible civil officials," Hoover said "My belief is that this provision is not only unworkable but dangerous to the country."

Rites Set In Ashland Friday For Owner of Pheasant Farm

ASHLAND — Services will be held at 2:30 p. m. Friday from the Fickes funeral home in Jeromesville for Mrs. Luetta Cunningham Tallmadge, 57, co-owner of one of the nations two largest pheasant farms, who died Wednesday morning at Samaritan hospital. Burial will be in Yankeetown cemetery near the Tallmadge farm on the Wayne-Ashland county line

Mrs Tallmadge, former resident of Marietta and Zensville, and Coshocton, came to Ashland county after she and her husband, James F. Tallmadge, decided to develop her pheasant raising hobby into a full time project in 1929. They bought the Ashland county farm as an ideal location for their project.

Majority of their pheasants have gone to state game preserves throughout the nation. Mrs Tallmadge, who always handled the correspondence of the business, signed her name "L. D Tallmadge" and was known thus through Ohio and other states in conservation groups

While a resident of Coshocton, Mrs. Tallmadge was vice president of the county Republican executive committee and at one time was a candidate for probate judge A former student of the New England Conservatory of Music at Boston, Mass, Mrs. Tallmadge, a lyric soprano, was for 15 years director of choirs of the Prestyterian and Methodist churches in Coshocton.

In addition to her husband, co-owner of the pheasant farm, Mrs. Tallmadge leaves a son James Cuningham Tallmadge, at home, five grandchildren; a brother, Commander R. P. Cunningham, U. S. N. (Ret) of Chicago, Ill. and a half sister, Mrs. Jane Robinson of Marietta.

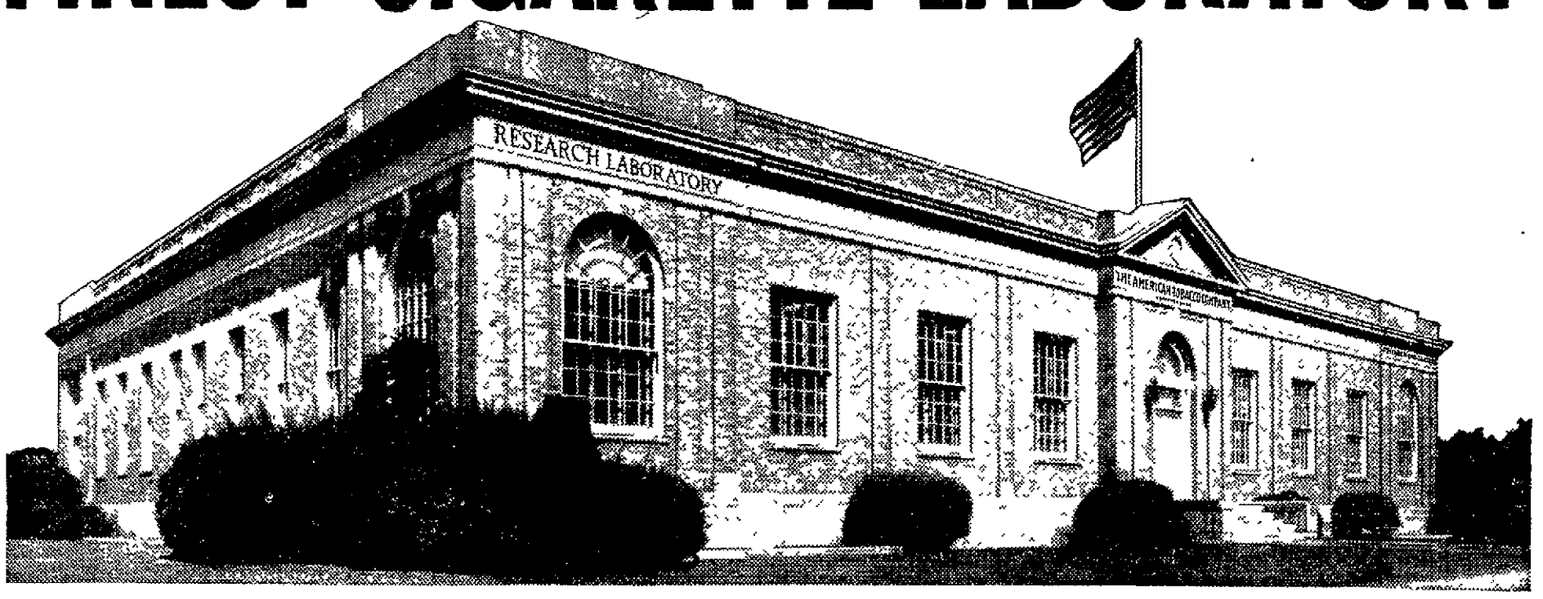
Lucky Strike maintains America's

FINEST CIGARETTE LABORATORY



America's largest cigarette research laboratory is your guarantee that Luckies are a finer cigarette!

YOU SEE HERE the largest and most complete laboratory of its kind operated by any cigarette manufacturer in America.

For many years Lucky Strike scientists have delved into cigarette research on an extensive scale. Out of this has grown an elaborate system of quality control. Every step in the making of Luckies—from before the tobacco is bought until the finished cigarette reaches you—comes under the laboratory's watchful eye. Literally hundreds of precision tests are conducted daily to make certain that the Lucky Strike you smoke is a finer, milder, more enjoyable cigarette. As you read this, a constant stream of tobacco . . . samples from every tobacco-growing area . . . is flowing into the laboratory in Richmond, Virginia. These samples are scientifically analyzed, and reports of their quality go to the men who buy at auction for the makers of Lucky Strike.

Armed with this confidential, scientific information—and their own sound judgment—these men go after finer, lighter, milder tobacco. This fine tobacco—together with scientifically controlled manufacturing methods—is your assurance that there is no finer cigarette in the world today than Lucky Strike!

Testing tobacco. Samples from every tobacco-growing area are analyzed before and after purchase. These extensive scientific analyses, along with the expert judgment of Lucky Strike buyers, assure you that the tobacco in Luckies is *fine!*

Red Cross Needs 500 Applicants to Meet Swim Course Goal

Lifesaving Classes To Open July 5

Sets Quota At 1,000 'Students'

The Richland County Red Cross has just topped the halfway mark in its campaign for 1,000 applicants for the free swimming courses to open next Tuesday.

Gerald Coron, Red Cross director of safety services, said a few more than 500 applications have been received.

To enroll in the swimming classes just fill the application carried in today's News-Journal and mail it to the Red 'Cross office by July 5. The classes are open to all Richland county residents.

Red Cross instructors will teach classes at Liberty Park pool and North Lake park school. Classes for beginners, intermediates and swimmers will be offered from Monday through Friday from 8 a. m. until noon. Each class will be one hour long.

Junior and senior lifesaving classes and adult swimming classes will be held from 6:30 to 9:30 p. m. each week day. A beginners class for business men and for husbands and wives will be taught from 7 to 8 p. m., if enough persons apply.

Paul Snyder will be the director of Liberty park pool and Robert Kennedy will be at North Lake park school. Classes will be taught by eight Red Cross instructors. The instructors are: Patricia Hieber, Nancy Sorenson, Donald Elias, John Domer, Joe Demoff, Sally Ashbaugh, Mrs. Mildred Osmond and Everet Miller.

"Not enough people realize the importance of this training in emergencies," Sam Fox, chairman of the water safety program, said.

"We read almost every day of drownings that could have been prevented, but they don't mean much to us unless they happen right at home." he added.

With the vacation season here it's doubly important that Mansfielders know how to protect their own lives and to help save others when the need arises, he said.

State Soon Will Get Larger Parole Force

By ROBERT SCHWEITZ

Ohio soon will have a 40 man parole force, Gov. Frank J. Lausche told the News-Journal in answer to a query about the state's penal system.

Recently the number of parole officers in Ohio was increased from 22 to 30. In April the Cuyahoga county grand jury association reported that the parole system was overloaded with as many as 175 to 200 parolees to an officer.

Critics of the parole system have long deplored its use as a possible danger to society, but the govenor said that "while a large number of inmates who were received at the Ohio penitentiary in 1948 had a previous record, we do not believe that it is is totally due to the weakness of our parole system."

The governor pointed out that over a 10-year period 88 per cent of those paroled from the Mansfield reformatory are not returned to prison.

Of the first 12 per cent who were listed as parole violators three per cent were returned for criminal offenses and the remaining nine per cent for technical violations, such as leaving the state without permission.

Cites Overcrowding

The governor disputed the theory that there has been a lack of funds for operation of the penal institutions. He said the difficulty has been that they are overcrowded, which prevents a proper program of examination, classification, segregation and rehabilitation.

Commenting on the manufacturing program at Mansfield reformatory, the governor said, "one of the important objects of the rehabilitation program is to keep the inmates employed. At Mansfield, in addition to the agricultural program, we have a print shop, furniture, show, and clothing factories and a machine shop."

Lausche repeated his recommendation to the legislature for an appropriation for a new reformatory at Grafton, and a new unit at the Lima State hospital for psychopathic offenders.

He said "if new facilities are established, we hope to use the Ohio penitentiary as a receiving center, and as a maximum security prison, and to continue the use of the London prison farm as it is now used.

He voiced the hope of using the new institution at Grafton as an open-type reformatory for young offenders.

Haymakers Get Tips

County Agent C. N. McGrew offered several precautions today to farmers who are doing their haymaking now.

First, McGrew warned, all hay if incompletely cured at the time of storage — that is, having a moisture content of of over 25 to 30 per cent — is subject to spontaneous combustion.

Leguminous varieties, such as alfalfa, clover, and vetch, require more care in curing than do some grasses such as timothy, he said. Because of the speeding up of haying operations due to the improved machinery there is a tendency to store hay more quickly than formerly.

Partially cured hay, the agent said, is more likely to heat in large mows than in small ones. Mows should be well ventilated, he emphasized. Leaky roofs, damp floors, or rain coming through open windows or doors may also cause heating of hay, he said.

Hit Trouble In Jury's Selection

ATHENS — (UP) — A second panel of 50 persons was called today in an effort to seat a jury in the first degree murder trial of Harry Dodds jr., 20, of New Straitsville. Dodds is accused of murdering Miss Eleanor Gifford, 52-year-old church worker, at her home near here last Jan. 3.

An original panel of 150 — largest in the county's history — was exhausted yesterday with 11 jurors tentatively seated. Judge Roy D. Williams said a 12th juror and two alternates would be selected as soon as possible.

Shoots From Close Range, Wins Case

IRONTON — (UP) — Common Pleas Judge James Collier yesterday acquitted Isaac Pancake on a charge of shooting to kill John DeLong. Pancake said he fired a sawed-off shotgun into a bank during an argument with DeLong over some land.

The judge ruled that at such a close distance, Pancake could not have missed Delong if he had intended to kill or wound him.

Blake Angry, Raps Gestapo

COLUMBUS (INS) — Sen. Arthur Blake, (D-Martins Ferry) outspoken critic of what he terms "gestapo tactics" by state liquor enforcement agents, defended his stand today in an open letter to the Ohio Tavern News, publication of the liquor industry in the state.

Blake defended his Senate floor attack on the enforcement agents as being based on what he "saw with my own eyes." He asserted:

"I have seen these fellows chiseling booze from the very people they wrecked hardships upon. I have seen them practicing deceit, coercion, and entrapment, all of which breeds disrespect for the law."

PICNIC ANNOUNCED

The Builders' class of the Lucas Congregational church has set July 16 as the date of its annual ice cream social. Home made ice cream will be served. Hot dogs and other sandwiches will be available.

LEGAL NOTICE

Notice is hereby given, that Mrs. Stella Kimes, 579 Stocking Ave., Mansfield, Ohio, has been duly appointed and qualified as Administratrix, in the estate of Edward Leathers, deceased, late of Mansfield, Richland County, Ohio. Date June 13, 1949.

S. H. CRAMER,
Probate Judge of Richland County, O.
(June 16, 23, 30, JLY. '49)

Faces Three Court Actions

CHICAGO — (INS) — Ruth Ann Steinhagen, the love crazed baseball fan who shot Eddie Waitkus, will have her day in as many as three Chicago courts today and her bullet-pierced idol will leave the hospital for the first time to testify against her.

Waitkus, the flashy first baseman of the Philadelphia Phillies, will climb out of his bed at Illinois Masonic hospital to make the 30 minute trip to the criminal court building.

The comely 19-year-old brunette typist will appear first in felony court for a hearing. Then she will be rushed before the grand jury, just down the corridor, for possible indictment. Should she be indicted, the state indicated that she will be rushed into another courtroom for arraignment.

Trees Seen as Cattle Food

ST. PAUL, MINN. — (UP) — Sawmill waste and culled trees may become molasses feed for hungry livestock in northeastern Minnesota.

Robert E. Wilson, Minnesota commissioner of iron range resources and rehabilitation, said cellulose of unused wood waste appears to be one answer for the recurring feed shortage in the area.

The Forest Products Laboratory of Madison, Wis., has been working at the project, and has come up with a molasses spread for cows' hay and green silage.

The laboratory got a carload of aspen slabs and edgings from Wilson and went to work. Chemicals changed the wood to edible sugars, which in turn were concentrated into a thick molasses.

Make a quick icing for an 8 or 9 inch of plain white cake by melting two or three tablespoons of butter or margarine in a skillet and adding a third cup of brown sugar; mix well over low heat, then add a cup of shredded coconut. Spread over the surface of the cake and toast carefulyy in the broiler.

45 Attend Daily Sessions

Girls Learn and Play At YW Day Camp

Forty-five girls from 10 to 14 years old are learning swimming, dramatics, games, and crafts at the YWCA day camp in progress through July 9.

The camp starts at 9 a. m. with an assembly period for the girls. Some of the special programs used for this period are folk games, an amateur show, listening to children's stories on records, and a truth or consequence session.

After the assembly period, the girls divide into four groups, and at 11 a. m. they form new groups. This way the girls receive the benefit of varied types of instruction.

The game group plays croquet, badminton, and checkers. In the crafts group they make lanyards, crepe paper dogs, and do painting and block printing.

The dramatics group is practicing "Snow White" which they will present to their parents on parents' day, the final Friday afternoon. The swimming is conducted at the YMCA. Irene and Ilene Huffman are instructors for this week, but instructors are needed for next week.

On July 11 an all-day outing will be held for the girls who attended the camp. No camp will be held Monday, July 4.

The instructor-counselors are Mrs. Ann Kiamy, Mrs. James Guest, Mrs. Janet Schacken, Miss Shirley Montgomery, Miss Edith Browarsky, Miss Diane Frickman, and Miss Louella Kuhn. Camp director is Mrs. Herman Bogantz.

2 Ashland Claims Ask Property Damage Funds

ASHLAND — Two local actions are among 104 miscellaneous claims filed against the state which were to be referred to the house finance committee in Columbus today. The sundry claims bill would appropriate $332,999 to pay the 104 claims.

There are nine different classes of claims with both Ashland ones for property damage. The Blue Ribbon Lines corporation asks $693 for damage to a bus struck Jan. 12, 1948 by a State Highway department truck. The other, by William E. Leiter, asks for $417 for damages to auto struck by an Ohio National Guard jeep on Aug. 11, 1948.

Clubmen See Movie of Trip To Far East

Members of the Mansfield Optimist club saw a travel movie, "A Dream and a Memory," yesterday at their luncheon meeting at the Mansfield-Leland hotel.

The movie followed the ship President Cleveland belonging to the American President Line, on a trip to the Orient. It showed in color such places as Manila Bay, Hong Kong, and Japan.

The movie was provided by Joseph Altomonte, a club member and a representative of Travel Unlimited.

Thomas Schacher announced that the tickets were ordered for the night ball game in Cleveland July 20, and the bus will leave about 2:30 p. m.

Ralph Stevens was program chairman, and Leonard Hurwitz had charge of the meeting.

Crawford Red Cross Installs New Staff

BUCYRUS — Frank P. Sitler local realtor, took over his duties as president of the Crawford county Red Cross chapter here this week, succeeding Rollen Koons.

Other officers, elected at the May meeting and inducted into office this week, included: vice president, Park Stuckman, Mt. Zion farmer; treasurer, J. H. Blicke, local banker, and secretary, Mrs. Edward Hughes.

Announcement was made the next visit of the bloodmobile unit will take place here Tuesday, July 26.

Idle Seen Near Peak

The number of persons draing unemployment compensation from the Mansfield office of the Bureau of Unemployment Compensation has just about reached its peak and should remain fairly stable the remainder of the year, according to BUC manager C. W. Handley.

"All but about three per cent of the 3,215 persons claiming unemployment benefits are estimated to be receiving compensation," Handley said "Benefit payments for the week ended June 25 are up only one per cent over preceding week."

Handley said the number of persons filing initial claims jumped from 301 for the week of June 18 to 515 for the week of June 25. The peak period for new claims was the week of June 11 when 610 persons made their first applications.

Although the number of persons filing initial applications during the past week was 214 higher than during the previous week, the percentage increase in payments was negligible because some of the applicants have found work and many of the claims have not been approved as yet.

Files For Trustee

Another Experiment Is Proposed

A NEW PROPOSAL for government manipulation of the business trend is being prepared for presentation to Congress. Like measures brought forward earlier in the year, it would give the government broad powers in the business field, but now the purpose is to counteract depression instead of to control inflation.

Much can be said in favor of achieving both purposes. But in the light of past experience with business manipulation by government, the new proposal is somewhat disturbing.

Controls intended to modify the effects of the business cycle must be planned and applied in advance. Yet experience of both private and government planners shows that they are not yet able to predict business trends far in advance with reliable accuracy.

When attempts are made at artificial control, they are about as likely to aggravate the cycle as to ease it, depending on whether the guessing was good or bad.

An incidental but very pertinent point is that this proposal, called an economic expansion plan, is also a government expansion plan of impressive proportions. It would create big new offices and agencies, and provide for big new spending.

Introduced at this late date in the session of Congress, it is likely to be pressed as an emergency measure. But a proposal of such wide significance certainly should not be dealt with hurriedly.

Needless Worry About Isotopes

IN A GRADUAL sort of way some of the mystery that has surrounded that word, "isotopes," appears to be clearing and there seems to have been no need for the flurry caused a week or so ago when word was passed around in Washington to the effect that isotopes were being sent to Norway, "which means that they will get into Russian hands."

In some way the general term, "isotopes," has become associated with the atomic bomb, while in reality it is a general term applied to substances which are chemically identical but of different atomic weights.

As used in connection with atomic research, the word usually refers to radio-active isotopes, which may be any one of a hundred or so materials made radio-active by exposure to atomic bombardment, as a by-product of atomic research.

Some radio-isotopes are useful in curing diseases, others in medical, industrial and agricultural research, but most of them have no special military significance.

For the real lowdown on isotopes, and how easy it is to get some if you want them, you'll enjoy reading Inez Robb's column elsewhere on this page today.

Oleo Coloring Up To Voters

WHILE a number of states have legalized the manufacture and sale of colored oleomargarine by legislative action, it appears that Ohioans must do this in the "hard way"—by majority vote at the November election.

The state Senate passed a bill to legalize the sale of colored oleo but this was turned down in the lower house, under pressure of dairy interests, and plans are now going forward to put the issue up to a vote at the fall election.

Housewives by the thousands have expressed resentment over the requirement that white oleo be colored at home and have taken leadership in securing enough signatures to petitions to place the question on the ballot. It is announced that a sufficient number of signers has already been secured.

It is estimated that the cost of presenting this issue to voters will approximate $50,000 and Dorothy Clinger, secretary of the Association of Voters for Colored Oleo has urged that the House reconsider and approve the measure. It seems quite unlikely, however, that this will be done.

One View of American Husbands

AMERICAN husbands learn from a report in the London Daily Mirror that they are tied to their wives' apron strings, and that therefore they are frustrated. This is not the first adverse comment on the state of American husbands. Continental observers, notably the French, who are supposed to speak with some authority on the subject of how to get along with a wife, have pointed out more than once that American women are spoiled.

If the condition really be as described, American literature is strangely free from references to it. To be sure a few bachelor satirists have made a name for themselves with their caustic allusions to the marital existence, but the great bulk of literature produced by husbands bears little evidence of a seething, frustrated yen to sunder the apron strings. A notable but rather lonely exception is offered by the comic strip character Dagwood Bumstead, who is frequently made to remark that "husbands are a sorry lot".

American husbands, the London newspaper declares, have the sympathy of their foreign counterparts—which seems to be wasted pity.

Now is the time for all sensible people to spend plenty of time in the sun. But sensible people don't overdo it. They get into their sunning gradually.

Still An Awful Lot of Bear Out There.

TODAY IN HISTORY

June 30, 1834, marks the date on which Indian Territory, originally set apart as a reservation for peaceful tribes, was established by an Act of Congress.

Dave Boone Says:

NOW that the sheepskins have been distributed, the young college grads are on the hunt for jobs, and they report them hard to get at the salaries expected. They may have to go to work as beginners for only three or four times what the old man got after being on the job ten years and raising a family.

* * *

A college boy fresh from the campus used to figure his education would help after a preliminary struggle to make both ends meet. Today a lot of 'em want the struggle eliminated and both ends automatically hooked up by zippers.

* * *

You can't blame 'em too much. It's natural to want to live in the style to which the demagogues, the campaign gasbags, the politicians, and the blueprint experts have accustomed them.

* * *

I figure a youth is getting a great break today if he has never heard an office-seeker yelling into a mike.

As Cerf Tells It

Atty. Ben Kirsch tells of the nervous youth who fell in love with the daughter of a crusty lawyer, famous for his high fees, and asked for her hand in marriage. "D-d-do you think, sir, that your daughter would make a good w-w-wife?" he stammered. "I definitely do not," roared the lawyer. "That will be twenty dollars, please."

WASHINGTON REPORT

By SENATOR ROBERT A. TAFT

THE SENATE has been engaged in debate for almost a month on the labor bill. At this writing it is difficult to predict with certainty what the outcome will be. But I feel certain that Congress will not accede to the President's demand for the outright repeal of the Taft-Hartley law and a return to the Wagner Act.

There has been so much propaganda against the Taft-Hartley law that it seems worthwhile to recall that this bill was passed twice by a bi-partisan vote in the 80th Congress, overriding the President's veto. A majority of Democrats as well as Republicans in Congress voted for this bill.

The act was passed for only one purpose, namely, to restore justice and equality in labor relations and to eliminate special privileges. It was not passed because of any hysteria nor because of any prejudice against unions on the part of Congress. In fact it protects union security and collective bargaining.

* * *

HOW has the act worked? After all that is the final test of legislation. So far as I can see, the Act has worked well and it has entirely satisfied the people of the United States. It has provided no substantial interferrnce with legitimate activities of unions. According to the secretary of labor, Mr. Tobin, himself, strikes and man-days lost have been greatly reduced since the passage of the law.

Mr. Tobin testified that in the 16 months between the end of the war and the passage of the Taft-Hartley law, work stoppages averaged 401 a month with 7,500,000 man-days idle per month. In the 18 months following the passage of the Taft-Hartley law, Mr. Tobin reported that work-stoppages had averaged only 259 a month, compared with 401, and man-days-idle averaged only 2,000,000 a month, compared with 7,500,000.

In other words, work lost by labor under the Taft-Hartley law was only one-third of what it was during the 16 months immediately preceding its passage.

And how have the labor unions fared under the Act? Union membership has increased by more than a million since the passage of the law At the end of two years experience with this law, unions are stronger than they have ever been before, so far as their power to recruit and retain their membership is concerned.

In the face of this testimony, all the propaganda to the effect that this is a "slave labor" law seems a bit silly.

* * *

LIKE all major pieces of legislation, the law has some defects. The law itself set up a committee to consider amendments which might be shown to be necessary by the actual operation of the law.

The minority members of the Senate labor committee after listening to criticism on the part of labor, management and the public have proposed a revision of the law with numerous amendments based on those criticisms where they were convincing.

We propose to retain most of the essential features of the Taft-Hartley Act, but to correct every subject of reasonable criticism.

The administration knows that it cannot completely repeal the Taft-Hartley law and has adopted some features of the law, but if the Thomas bill, the administration's measure, were adopted it would really take us back to the one-sided Wagner Act.

It would relieve unions from responsibility for their contracts and for the injustice they do third parties by secondary boycotts and jurisdictional strikes. It would restore and encourage the closed shop and refuse any man a job who can't get into the union, or doesn't want to. It would outlaw many state laws limiting closed shops.

It would relieve unions of responsibility for the acts of their agents and go back to unionization of foremen. It would abolish the independent mediation service and turn it over to the department of labor. It would destroy the protection of welfare funds and set up the National Labor Relations board again as a one-sided government agency always opposed to the employer, whereas we have tried to make it a judicial body.

My belief is Congress will accept those provisions of the Taft-Hartley law which have proved their worth and desirability.

One Man's Opinion

—By WALTER KIERNAN

A DELICATE question is raised with the appearance of mink brassieres on the market.

Can we claim this as a typical recession result?

* * *

The mink brassiere sells for $100 and is guaranteed to excite conversation both when ever shown and when never shown.

* * *

And its appearance on the market indicates that the nation is quickly shaking down to the hard core of basic economics.

* * *

Meanwhile Sen. George says that Mr. Truman's "backward nation" program will be 100 years in fulfillment. . . . And it may be another hundred before we can bring those countries up to the mink brassiere standard.

* * *

But such things indicate how far we have come. Once our goal was milk for Hottentots and now it is mink for all.

* * *

No wonder the treasury wants to hire 5,000 more tax agents.

Barkley Stories Enjoyed By Vishinsky

By DREW PEARSON

WASHINGTON—When Secretary of State Acheson got back from Paris, he expressed his thanks to Vice President Barkley for his help at the foreign ministers' conference.

Barkley was mystified. It was news to him that he had been helping. Acheson then explained.

At the start of the Paris conference, the atmosphere was cold. Finally Acheson invited Foreign Minister Vishinsky to dinner. But even after cocktails the guests were aloof.

So the secretary of state decided to mellow the foreign minister of Russia with some of Alben Barkley's famous stories.

As a result Vishinsky was almost in tears. Even the interpreter had a hard time keeping a straight face. Acheson told every Barkley joke he could remember, and after the dinner was over, Vishinsky put one arm around Acheson's shoulder and remarked:

"I may not win anything negotiating with you, but it is certainly a pleasure to visit with you."

* * *

Barkley's Latest.

ONE of Barkley's latest stories is about a Kentucky friend who helped him get elected to the house of representatives a quarter of a century ago. After the election the friend came around to tell him:

"I want you to know that I sweat, bled and almost died for you. There isn't anything I wouldn't do for you, and all I want is for you to be a great congressman."

A few years later Barkley was elected to the Senate. Again his friend came to see him, and said:

I want you to know that I sweat, bled and almost died for you and I know you are going to be a great senator. There isn't anything else I want from you."

Finally, when Barkley was elected vice president of the United States, his friend came back and this time he said:

"When you were elected to the house of representatives, I did my best to help you. When you were elected to the Senate, I went down the line for you again. I also sweat, bled and almost died to make you vice president. Now I want you to do something for me."

"What is it?" asked Barkley, worried.

"Help me take out my citizenship papers."

B-36 Tests Incomplete.

SINCE the much-ballyhooed battle of the B-36 vs. Navy jet fighter hasn't yet come off, the Air Force has decided to stage a secret B-36 test on its own.

These tests have been staged at Muroc base, California, and so far jet planes have theoretically shot down with camera guns the giant plane which is scheduled to carry the atom bomb in case of war.

However, this does not yet mean that the jet fighters are superior to the big bombers.

So far the B-36 hasn't fired back, has merely tried to escape jets. Since the bombers' guns have a range 800 yards greater than the jets, is the final result may be different.

The tests have also demonstrated that it's difficult to hold the jets steady for accurate firing at an altitude of 40,000 feet. In contrast the B-36's guns are on a more stable base and can shoot farther.

It is also significant that the air force has used its lightning-speed F-86 in the secret tests—a plane that holds the world's speed record and can outfly the navy's banshee.

Note—The F-86 was piloted in the Muroc test by Captain "Chuck" Yeager.

* * *

Checkup Almost Dropped.

THE inside story of the Judith Coplon case is that at one time the justice department almost dropped the investigation.

Original tip regarding the good-looking young government girl was picked up, strangely enough, aboard the Polish steamship Batory. The FBI had a plant aboard the vessel and overheard Judith Coplon's name mentioned during a conversation.

Making a routine check of her name, the FBI found that she was working in the justice department, and put her under surveillance. This all began shortly before Christmas.

The surveillance soon showed that the young lady was spending nights in the apartment of another justice department official, H. P. Shapiro. She brought her suitcase from his apartment to the office next morning, and probably took government documents away in it at night.

A loyalty check was made of Shapiro which turned out O. K., and the justice department then figured it was wasting money shadowing Miss Coplon. It almost decided to drop the case. In the end, however, the surveillance was continued for another two or three days.

It was the very next day, and after spending the night with Shapiro, that Miss Coplon went to New York to meet her Russian boy friend, Gubitchev.

* * *

Diplomatic Pouch.

THE French and British fleets are staging a secret rendezvous off the French coast today (June 30) to test out very important new radar equipment. . .At one point during the Paris conference when Vishinsky stalled, Acheson stood up and said: "Mr. Vishinsky, I didn't come to Paris to dance a diplomatic minuet. I came here to get something accomplished." Vishinsky immediately went back to real work.

Assignment: America

You Can Buy Isotopes

By INEZ ROBB

NEW YORK — Wanna buy an isotope? If you are qualified, responsible party, it is not much more difficult to purchase a mess of these mysterious radioactive by-products of America's atomic production than to snare a two-pants suit.

As it turns out, isotopes today are no mystery except to laymen like myself who can never remember that H-20 really stands for.

My confusion seems to have been shared in recent days by congressional committees probing into the sale and distribution of isotopes.

Yet less than four years after the disintegration of Hiroshima under the impact of the first atom bomb heard round the world, innumberable American hospitals, laboratories and commercial firms buy isotopes almost as casually as they buy lead pencils and carbon paper. Almost, but not quite.

And although the very word isotope seems full of witchcraft and mumbo-jumbo, they are being used today to test such mundane, everyday articles as shoe polish and the resistance of commercial paint to salt water.

While the whole problem of atomic energy remains for the average American a problem for Merlin and the Alchemists' Union, the isotope situation has become so commonplace that the United States Atomic Energy Commission has issued an isotope catalogue for the paying customers.

More than 75 isotopes, plus their retail price and life expectancy, are listed in the catalogue as matter - of - factly as Sears-Roebuck lists plow shares or coal stoves. The catalogue is a good bit smaller than the Messrs. Sears - Roebuck's and there are no illustrations, even in black and white, but the principle is the same.

* * *

Wide Range of Prices.

ALL THESE facts and many more, as well as the catalogue, I garnered at the New York office of the Atomic Energy Commission on Columbus avenue. A man in a mood to buy isotopes can find one to fit almost any pocketbook, and, for all I know, any purpose.

They range in price from radioactive zirconium which is a bargain at 67 cents per millicurie, to a quarter of a gram—or a bare pinch—of something called europium which sells for $2,168, or the down payment on a mink coat.

Europium, I was told by experts in the New York headquarters, is a rare earth, and at the price I am inclined not to argue. It is used in basic atomic research.

There is not much commercial call for europium, but there is a steady demand for such common radioisotopes as phosphorous, cobalt, carbon, sodium, iodine, gold, sulphur, iron and arsenic.

Isotopes for the study and treatment of cancer are still supplied without cost by the AEC to hospitals and laboratories.

But commericial firms, for example, pay $33 for 17 grams of radioactive iron 59; $12 for one-sixtieth of a gram (a pin-point) of radioactive gold, and $15 for one gram of radio active silver.

So far, all the isotopes for sale by the commission are produced at Oak Ridge and are the products of its reactor or atomic pile. Materials such as gold, to be bombarded into radio activity by neutrons, are inserted in the pile somewhat like cupcakes bombarded by heat in a kitchen oven.

To some extent, the cost of various isotopes depends upon their life expectancy, or what in technical terms is known as their "half life."

Gold isotopes have a half life of 2.7 days, which means that at the end of that time, half of the radio activity will have escaped. But barium (C14) has a half-life of 5,100 years!

Radioactivity decreases by geometric ratio. Isotopes are usable generally for seven half-lives or until they are reduced to one-hundredth or their original radioactivity.

Washington Calling

That 5 Per Cent Racket

By MARQUIS CHILDS

WASHINGTON — A great deal of attention has been given, and properly, to the case of James V. Hunt who was first revealed by the New York Herald Tribune as one of the tribe of Washington "5 per centers."

In this branch of Washington's influence industry you sign a contract with a "consultant" who agrees, in return for 5 per cent of the gross, to use his important "connections" to help get a government order for your business.

The 5 per cent racket should be rooted out. It is a disgrace to government and an intolerable levy on business and the taxpayer.

Unhappily, there have been recent examples of influence at high levels. If the 5 per centers, who may prove to be merely the small fry of the influence industhen certainly these examples deserve immediate and searching consideration.

A congressional investigation should inquire into the service performed by William M. Boyle, jr., now executive director of the Democratic national committee, for Preston T. Tucker who has been indicted in Chicago for fraud in connection with the promotion of his rear - drive automobile. Boyle was one of Tucker's Washington attorneys.

* * *

Appearance of Influence.

ACCORDING to a recent Collier's article, Boyle in an opinion written for Tucker held that Tucker's contract with the War Assets Administration for the huge B-29 engine plant in Chicago was a valid lease the government could not break.

Without that lease on a plant which with its machinery cost more than $15,000,000 Tucker could never have pushed his dizzy promotion, which cost investors and prospective dealers $26,000,000. Boyle, a former Kansas city policeman and a long-time associate of President Truman, was then in private law practice.

I have learned that Boyle was given 20,000 shares of Tucker stock as his fee for this service. This was Class B stock with a nominal value of 10 cents a share.

A million shares of the Class B stock were outstanding. Of that total Tucker controlled 900,000 through a voting trust.

Only Class A stock was offered to the public at $5 a share. There were 3,490,000 shares of Class A stock sold to the public both Class A and Class B shares had one vote each and thus by his control of a large block of Class B Tucker could exercise unchallenged authority over the company.

Boyle says that he spent only 10 days to two weeks on the Tucker matter. Others say that the spectacular promoter was in and out of Boyle's office over a considerably longer period of time.

If Boyle disposed of his stock at $2,000, which would be its face value at 10 cents a share, then he was badly underpaid. For every indication is that the service he performed was vital to Tucker's fantastic operation.

Why was Boyle paid in stock of the company? What happened to that stock? How important were Boyle's services? Only a congressional committee can get all the answers.

Tucker has now pleaded not guilty to the 31 - count indictment returned against him and his associates in Chicago. The federal court docket there is so crowded that it may be a year before the trial can be held.

Communism's Attack on Catholic Church

By J. C. OESTREICHER

COMPLETE failure of Soviet Russia's fantastic attempt to communize the Catholic church is seen in fresh new evidence of extreme persecution and oppression behind the Iron Curtain.

The Vatican now estimates that between 2,000 and 3,000 priests have been arrested or "kidnaped" in the seven Soviet satellite countries since the end of the war.

But the mere fact that the communist overlords of these nations have felt obliged to take such extreme steps shows that their plan to win over the bulk of the clergy to aid in communistic indoctrination of the churchgoing masses has foundered completely.

Excommunication decrees issued by Pope Pius XII after the imprisonment of Hungary's Josef Cardinal Mindszenty and the strong-arm tactics now being applied to Archbishop Josef Beran of Prague have had no effect on communist officials.

The communists apparently are determined to drive the Catholic church out of existence as an independent hierarchy. They plan to present in its place a puppet church geared to the machinery of totalitarian government.

So far as the present is concerned, communist authorities probably will not be able to do any more than drive the church underground.

It can be expected that present-day adults in all of the satellite countries will find some means of worshipping, just as they always have throughout history.

The climax of the present struggle between the church and what Pope Pius has termed the "forces of darkness" may be expected to come on Christmas eve of this year.

On that occasion, the Pope will open the famous holy door of St. Peter's, inaugurating the holy year of 1950.

World-wide attention that will be focussed on holy year demonstrations will make it difficult for the communist leaders to keep from their people the means by which they are endeavoring to expunge spiritual influence from the national life.

The upshot may be some signs of popular discontent that will surprise those responsible for it.

Tiro Council Among First To Place Ban On Fireworks

TIRO — The fact Tiro was one of the municipalities to lead the parade in prohibiting the sale of fireworks was disclosed this week by Mayor Robert Eckstein who found that council passed an ordinance on May 23, 1910 providing that no person shall fire, sell or give away any fireworks within the corporation

This ordinance was signed by Mayor G O Blair and Council Clerk C W Shilling It further provided that nothing in the ordinance will prevent the mayor from issueing a permit for public fireworks display when authorized to do so by the council

Mayor Eckstein stated that as far as he can find this ordinance never has been repealed and therefore still is in effect

In 1910 the movement to stop the sale of fireworks was in its infancy and few people expected the traffic in fireworks would be banned by the state as it was a few years ago

The ordinance made an exception in the case of the handling of fireworks wholesale and not for use within the village limits Thus the council proved its willingness to assist any wholesale fireworks business that might have developed in Tiro

Mayor Opens City's Campaign Against Venereal Diseases

An "intensive educational campaign" against venereal disease in Richland county was launched today for the city's health department by proclamation of Mayor Roy W Vaughn

The mayor proclaimed the months of July and August as the "Time to Learn" and called on Mansfielders to give the program their full support

The program, which will be carried on locally with the endorsement of the state medical association and the Richland County Medical Society, will be highlighted with aerial towing and sky writing and the distribution of pamphlets into hotels, bowling alleys, barber shops, bars and restaurants.

Dr Harry Wain city county health commissioner, said intensification of case findings is being planned for the program and one of the main objectives of the campaign is "to raise the general index of suspicion on the part of susceptible persons"

According to state reports last year on venereal disease Richland county ranked sixth highest in reported early cases of syphilis, Dr Wain said the high rating of the county was due in part to the excellent cooperation of the medical men in reporting the cases He added that pre-martal and pre natal blood tests also have raised the report rate

Richland county reported 165 persons with venereal disease per 100,000 cases last year The state average was 125 persons per 100 000 population.

Senate Gets Housing Bill

WASHINGTON — (INS) — The administration's multi - billion dollar housing bill most ambitious domestic program voted by Congress in years, appears headed today for swift final approval

The bill adopted by the House Wednesday night by a 228 to 185 vote was swiftly sent to the Senate, which approved a slightly different measure April 21 by a vote of 57 to 13

Swift agreement by the House and Senate was anticipated as Rep Spence (D) N Y, co-sponsor of the legislation said the House bill is very similar to the Senate measure Indications are that President Truman will receive the legislation next week

"LOOKS GOOD ENOUGH TO EAT, DOESN'T IT?" ASKS PETE ZIMMER AS HE IUNS THE THICK, IVORY-COLORED YEAST THROUGH THE SIEVE

Pete pans our yeast for golden goodness

"Enough to make 50,000 loaves of bread . . . or more", says Pete Zimmer as he carefully draws off the yeast from fermenters that have just sent their thousands of gallons to the stockhouse for aging

But, of course, none of the yeast that Pete handles has ever been used for making bread It's a family of yeast that has done nothing for generations but make Burkhardt's Beer.

It started with one cell . . . under a microscope!

By inspection, under about 500 times magnification, one cell of yeast was selected by master brewers Hundreds of generations back, it was picked as the father of all Burkhardt yeast It was tested in small batches . . . then large batches then a full brew—and thousands upon thousands of barrels have been produced by its billions and billions of offspring.

What does yeast do? Pete knows the technical side, too "It goes to work on the wort as soon as it's cooled and in 7 to 12 days turns out a fine beer It works mainly on the maltose and breaks it up into alcohol and carbon dioxide" he'll tell you "Oh, there's lots more to it but, why go into detail? The beer's good. I know, because we're brewing more of it every year"

Pete's another one of our men who is envied by many outsiders in hot summer weather Where he works, the temperature stays close to freezing. That's why he's bundled up with several layers of clothing all the time.

And he loves it He's seen the world—he served in the Merchant Marine on several oceans. Now he wants to stay home for awhile.

While he's athletic, he doesn't talk much about what he's doing now He is proud, though, of the Tennis Championship he won at Camp Christopher, a C. Y. O camp, when he was 12. Last winter he bowled in the C I O Industrial League . . . and he golfs some, and swims

But the minute you talk to him about athletics, he brings up his brother's Golden Gloves Championships If you ask Pete a direct question, he'll admit he has sparred with his brother quite a bit.

Pete lives with his mother and, like many bachelors, keeps his plans to himself. It's doubtful, though, if anyone else will be able to make chicken paprikash to his liking as his mother does.

We're proud to have Pete working with us. Proud to see the care with which he handles the yeast which is the key to the golden goodness of our beer.

We're proud of the interest that men like Pete take in their work. We believe this is the extra--added to superb ingredients—that gives Burkhardt's the distinctive flavor that so many people like best.

Story of 'Thumps' Irks Alleged Killer

NEW YORK — (UP) — Fat Martha Beck, on trial with her paramour for the murder of a trusting widow who dreamed of a honeymoon in Spain, shrieked at a woman witness yesterday

Are you being paid to sit there and tell these lies about me?"

Mrs Anna Arnsperger, a landlady, had testified to a mysterious 'thump, thump, thump" on her stairs She had looked out Her strange tenants, Mrs Beck and her now frightened lover, Raymond Fernandez, were dragging a trunk down the stairs from their rooms

They loaded it laborously into a car. Mrs. Arnsperger didn't know it but the trunk contained the body of Mrs. Janet Fay whose hope of being married by Fernandez had been stifled by murder.

To all of this, Mrs Beck offered no objection but when under cross - examination Mrs Arnsperger described apparently innocuous conversations, her double chins began quivering and she shouted at the witness

Presiding Judge Ferdinand Pecora pounded his gavel for order and reprimanded her

"Your honor," she replied 'She told six lies about me I'm getting sick and tired

Pecora cut her short

Her attorney, Herbert Rosenberg went to her side and they engaged in a brief, inaudible but heated exchange Rosenberg asked the court for a recess Pecora recessed for lunch

Mrs Arnsperger followed her husband, Walter, to the stand

"I heard this bang bang down the stairs" Mrs Arnsperger said

"I see them taking the trunk out They had the car backed up to our front stoop'

She said she knew the couple as Mr. and Mrs. Raymond Martin and that they rented the $100 a month apartment in December.

Judge Pecora denied a defense request for the jury to visit the scene of the slaying

Pecora read part of Defense Attorney Herbert Rosenberg's opening statement back to him The judge asserted Rosenberg admitted that the upstairs apartment with 13 steps was the scene of the slaying He said there was no reason for the jury to visit it

Fear Riot, Close Mine

MADISONVILLE, Ky — (AP) — The East Diamond coal mine was closed at the request of Hopkins county Sheriff Ras Gilliland yesterday

This action was taken within a few hours after an estimated 4 000 United Mine Workers from the West Kentucky coal field marched to the mine, operated by non union workers

Sheriff Gilliland said he asked the marchers to leave the company property and they refused. He said the situation was beyond his control and he asked the company to close operations It complied. The men remained at the mine.

Spokesmen for the UMW agreed with the sheriff and state police there was no violence Jess Loveless, secretary of UMW District 23, said he anticipated no trouble from UMW members

He said the UMW members are interested in having employes at the East Diamond mine join the union Loveless declined to estimate the number of men who marched to the mine, two miles east of here He said he had not been at the scene

Kentucky Lake in western Kentucky is the largest man-made lake in the world It has a shore line of 2,400 miles and extends in length 185 miles from Kentucky to Pick Wick Dam in Tennessee

Rips Press, Adds Praise

LONDON — (AP) — A royal commission criticized the British press yesterday for partisanship, distortion of news and failure to give a clear picture of world affairs

It recommended setting up a general council of the press to foster — but not force —, integrity and responsibility to the public

At the same time, the report —issued after two years' study — declared "it is generally agreed that the British press is inferior to none in the world. It is free from corruption."

The 14 men and three women of the royal commission on the press examined newsmen and publishers as expert witnesses during its investigation and found

"There is nothing approaching monopoly in the press as a whole

"Neither in the local weekly, in the news agencies do we expect a significant trend towards further concentration of ownership"

'The gap between the best of the quality papers and the general run of the popular press is too wide, and the number of papers of an intermediate type is too small"

From where I sit ... *by* Joe Marsh

Now I'm Going Back To High School!

When I saw lights burning in the High School auditorium last night, I looked in to see what went on. About twenty people were listening to Buzz Ellis, the electrician, talk about television

I slipped into a back seat and asked Hap Thomas what was up. Hap told me it was the new Self-Improvement Club I stayed to listen—and learned a lot. Buzz really knows his stuff

Turns out this club meets every Friday night. Each member gives a talk on the subject he knows most about I joined on the spot because learning new things is one of my favorite hobbies.

From where I sit, it's willingness to learn from the other person that makes Americans tolerant towards so many different viewpoints and tastes in things Just because Buzz Ellis goes for chocolate malteds, while I prefer a mellow glass of beer, doesn't mean I'm right and he's wrong Incidentally next week *I'm* going to talk on how to run a newspaper.

Announcement Made of Sheetz-Parr Wedding

Miss Daisy Sheetz, 510 Daisy street, exchanged nuptial vows with Connie Parr jr., 144 Blymyer avenue, June 25 at St. Paul's Lutheran church at 6:30 p. m. The vows were solemnized by the Rev. John G. Gensel.

The bride is the daughter of Mr. and Mrs. Joseph Sheetz. Mr. Parr is the son of Mr. and Mrs. Connie Parr, of Rochester, N. Y. The altar was decorated with large beauty baskets and lighted tapers for the single ring service. The custom of open church was observed.

The bride, who was given in marriage by her father, wore a marquisette gown fashioned with a square neckline of imported Chantilly lace. A wide matching lace bustle completed the gown. Her fingertip veil was attached to a headpiece trimmed in pearls.

Her bouquet contained orchids and white carnations. Miss Jeanne Dittrich, a close friend of the couple, served as matron of honor. Misses Emily Kmetz and Louise Zgela, cousins of the bride, served as bridesmaids. All the attendants were attired in like styled gowns of marquisette, trimmed at the neckline, and ending in full skirts with hoops. The colors used were orchid, aqua and yellow.

The attendants carried colonial bouquets, tied with small bows and wide streamer ribbons, matching their gowns. The bride's mother's dress was of royal blue crepe. The bridegroom's mother wore a pink jersey dress. Both wore yellow rosebud corsages.

Robert William Dittrich, a friend of the couple, served as best man. William Zgela, and John Kmetz, the bride's cousins, escorted guests to their pews. Following the ceremony a reception for 150 guests was held. Luncheon was served buffet style.

For their wedding trip to Lake Erie, the bride wore an aqua chambray frock with white accessories and a corsage from her bridal bouquet. They will reside with the bride's parents upon their return.

The bride is a graduate of Mansfield Senior High school. The bridegroom who is an employe of Westinghouse Electric company, is a graduate of Rochester senior high school.

Out-of-town guests were present for the wedding from Bascom and Rochester, New York, Cleveland, Cincinnati, Columbus, Tiffin and Crestline.

GUEST PARTY

A guest party was held Tuesday evening by members of Zeta Rho chapter, Delta Theta Tau sorority, at the home of Mrs. Sherman Perlman, near Mifflin. A covered dish dinner was served to 20 members and guests. Later the group enjoyed a plastic party in charge of Mrs. Pat Breisinger.

Sour cream, flavored with a little sugar, lemon juice, salt and freshly ground pepper, makes an easily prepared dressing for thinly sliced tomatoes Serve on a bed of shredded lettuce.

Couple Wed In Sandusky

Announcement is being made of the marriage of Miss Myrna Lee DeRhodes, Mills street, Sandusky, and James L. Dunn, son of Mrs. Eileen Brinkman, 1600 Ashland road. Nuptial vows were exchanged on June 19 at 2:30 p. m. at St. Peter's church in Sandusky. Rev. Joseph Smith officiated for the double ring open church service.

The bride wore a white frock and white orchid.

Robert Johnson of New Washington served as best man, when the bride was given in marriage by Harold DeRhodes.

Mrs. Brinkman chose for her son's wedding a blue dress and wore a white orchid. Following the ceremony a reception was held at the Brinkman home.

The couple left for a trip to New York with the bride attired in a blue suit and matching accessories. Upon their return they will reside in New Washington.

Mr. Dunn is employed at the Westinghouse Electric Corporation.

Mrs. Hiss Denies Typing Spy Papers

NEW YORK — (UP) — Mrs. Alger Hiss denied on the witness stand yesterday that she typed copies of secret State department documents for delivery to Whittaker Chambers, courier for a Soviet spy ring.

Mrs. Hiss said she never had given any of the government documents in evidence in her husband's federal court perjury trial to Chambers and never had seen her husband do so.

Chambers charged that Hiss furnished him copies, summaries, and paraphrases of State department secret documents in wholesale fashion in 1937 - 38 while Hiss was a high State department official. Chambers testified that Mrs. Hiss typed copies of the documents during the evening so her husband could return the originals to State department files the next morning.

Hiss is charged with lying in testifying before a federal grand jury Dec. 15 that he never had delivered secret State department documents to Chambers and never had seen Chambers after Jan. 1, 1937.

Mrs. Hiss denied she and her husband went by automobile with Chambers on Aug. 10, 1937 to Peterboro, N. H., and saw a performance of "She Stoops To Conquer" there. Chambers had testified that they took such a trip.

Mrs. Hiss also denied numerous housewifely details in the testimony Mrs. Whittaker Chambers had given.

Mrs. Chambers had said the Hiss home on 30th street in Washington had a white front. Mrs. Hiss said it was bright yellow.

Mrs. Hiss denied Mrs. Chambers had come twice to the 30th street house.

Mrs. Hiss said the living room walls and woodwork at 30th street were green, not pink, as Mrs. Chambers had testified. At the Volta place home, into which the Hisses moved after they left 30th street, the dining room and kitchen were in the front of the house. Mrs. Hiss testified. Mrs. Chambers had testified they were in the rear.

Find Benefits County, Man

SACRAMENTO, Cal. — (UP) — More than a year ago, 68-year-old George Harnden found a wad of bills amounting to $3,800 in a money belt while searching for kindling near his shabby trailer home.

County officials took the money in custody for 12 months pending claims by the loser. No one claimed it.

So the county turned the money back to Harnden as the finder. But at the same time, the county cut down its monthly overhead.

Harnden was an old age pensioner. California law denies assistance to any elderly citizen worth more than $1,500. The county delivered Harnden his windfall, along with notice that he was off the pension rolls until he reduced his capital below the legal maximum.

Statistics show that about 130 drug stores throughout the nation are robbed every 30 days for their narcotic supplies. An equal number of hospital and offices are looted in the same period.

Senate Set For Change In Offices

Moving Back To Old Chamber

WASHINGTON — (UP) — Tuesday, Jan. 4, 1859, was a bitter cold day in Washington.

The wood in the fire places of the old, gass-lit Senate chamber crackled and the 62 senators — all there were in those days—rubbed the numbness out of their hands.

The honorable John Cabell Breckinridge, the vice president of the United States, removed the glove from his gavel hand and demanded order. This, he announced solemnly, was to be the last day the Senate would hold sessions at the old stand. That noble body was about to move to new quarters, equipped with brass spittoons, fancy snuff boxes and plush surroundings.

The Senate is getting ready to move again—back to the old place. The roof is about to crash on the dignified heads below. Workmen will jack up the roof supports and do the kind of remake job they are planning on the White House.

This isn't the first time that the Senate has moved back into the old room which once echoed to the golden oratory of Clay and Webster and Calhoun. It's gone back several times before for similar reasons—repairs to the present quarters.

The old chamber, to the left of the capitol rotunda, probably is Washington's most useful spare room. After the 35th Senate moved out, the supreme court moved in and stayed for 75 years until the tribunal moved across the street to its magnificent, white marble home in 1935. It has been a museum since.

On that January day in 1859, the senators interrupted business long enough to pay respect to a friend — the old room.

Sen. John J. Crittenden of Kentucky arose to say that the 35th Congress could spare a moment, surely, so he could indulge "in a few words of parting from this chamber."

The gentleman from the blue grass pulled out all the stops.

"Mr. President," he said, "we cannot quit this chamber without some feeling of sacred sadness. . .here questions of American constitutions and laws have been debated; questions of peace and war have been debated; questions of empires. . .they give a sort of consecrated character to this hall. No matter under what sky we may sit; no matter what dome may cover us; the great patriotic spirit of the Senate of the United States will be there and I have an abiding confidence that it will never fall in the performance of its duty, sit where it may, even though it were a desert."

Helicopter Finds Relics

WASHINGTON — (UP) — The search for ancient relics in remote areas has taken a new twist. One group of archeologists used helicopters to help them over the rough spots on an expedition into the jungles of eastern Panama.

"In half a day, we accomplished what would have taken us up to two weeks by canoe and on foot," reported the chief of the expedition, Matthew W. Stirling.

The group's exploration of ancient jungle burial mounds was sponsored by the National Geographic Society and the Smithsonian Institution.

Within a short range of the mound site, the expedition uncovered an "entirely new culture," digging up long-buried pottery in the form of frogs, turtles, monkeys, birds and geometric designs, Stirling said.

Linguistic Expert Studies Ohio Talk

DEFIANCE —(AP)— Do you call your parents "Paw and Maw"?

Is a hog a "hawg" in your language?

If your answer is yes, you indicate your speech has its roots in southern Ohio and Pennsylvania, rather than in the Yankee east.

Such is the contention of Dr. Raven I. McDavid, a language expert of the University of Illinois.

He has just completed a survey of characteristics of speech of life-long residents of this area. He also surveyed Perrysburg and is continuing his study in other mid-west sections. Thirty communities of Ohio are included in the study he and others are making.

His findings, along with those of other investigators, will be published eventually in a linguistic atlas of United States and Canada.

Sponsor of the project is the American Council of Learned Societies. The work in Ohio is sponsored by Western Reserve university and the Ohio State Archaeological and Historical society.

Dr. McDavid said this section of the Maumee valley is especially worthy of linguistic research, because this was a real transition area between different currents of migration and communication.

Here, he said, the Miami and Erie canal established north and south communication, crossing the natural east-west migration lines even before much of the old "black swamp" was cleared of forest and drained for farm settlement.

Dr. McDavid mentioned some of the Pennsylvania and Ohio valley terms being used here. Instead of the Yankee derivatives that might have been expected are: "Doddle" for haycock; "quarter till" 8 (instead of quarter of); "fishworms" for angleworms; "crawdad" instead of crab; "skillet" for frying pan or spider; "hull" of a walnut instead of shuck; "jacket" instead of vest.

Then there is the familiar insect, the dragon fly. Around Defiance it appears to be called "snake feeder" (southern) interchangeable with "darning needle" (northern). "Bucket" for pail and "belling" for wedding serenade are unmistakeable western Pennsylvania.

Local idioms from the German settlers were also discovered in Defiance. Dr. McDavid cited "snits" of "schnitz" for dried apples.

Dr. MdDavid said that some "Yankee - derived" forms of speech, found to be common at Perrysburg, 50 miles away, were seldom encountered in the Defiance area.

Here, he said, the influence seemed to be more from Pennsylvania and the Ohio valley, rather than from the east. Names for many common things here also differed from those found a relatively short distance north in Michigan.

In folk vocabulary, animal calls are likely to be most stable, Dr. McDavid added. This is because these calls can be learned only from the immediate environment, he pointed out.

In this respect the Maumee valley language roots show the mixture of Yankee with Pennsylvania and southern Ohio. In Michigan, for instance, one now hears the Yankee sheep call of "koday" or "konan", he declared. Around here, however, it is Pennsylvania "sheeep" or a shrill "sheepee." But here the cows answer to Yankee "co-boss" as well as Pennsylvania "sookee."

Dr. McDavid uses a questionnaire of 550 items. These are about weather, household articles common implements, and many other topics of common conversation. The questions are designed to sample grammar, pronunciation and vocabulary, under conditions approximately ordinary conversation.

Claims New Toothpaste Eliminates Tooth Decay

CHICAGO — (INS) — The dental profession studied today a research report which indicated that chlorophyll — the substance that gives grass and green plants their color — may effectively prevent tooth decay.

The report was made by Dr. Gustav W. Rapp, professor of biochemistry at the Dental school of Loyola University, Chicago.

He said that toothpaste containing chlorophyll eliminated from the mouth the three major causes of tooth decay.

Dr. Rapp, who tested the toothpaste for six months, said it did the following things

1. Prevented the formation of bacterial acids that attack the surface of the tooth;

2. Retarded the breakdown of the protective tooth enamel; and

3 Inhibited such bacteria as streptococci and staphylococci aureous, which are among the agents believed to be responsible for dental caries.

Dr. Rapp used in his experiments a green - colored toothpaste containing chlorophyll.

The American Dental association, historically skeptical about new, dentifrices had no official comment on the chlorophyll toothpaste.

It was learned, however, that Dr. Rapp's report has been studied with considerable interest and enthusiasm at the ADA

Chlorophyll is one of the mysterious agents involved in the process known as photosynthesis This intricate and subtle chemical process by plants converts the energy given off by the sun's rays into stored food energy

Scientists have never been able to duplicate this process in their laboratories or discover exactly how it works, but it has long been known that without chlorophyll neither plants nor animals — including man — can live.

FOOLS DOCTORS—Playing with her favorite toy horse is 15-months-old Sandra Lee Schooley of Crafton, Pa , who had been given "six months at the most" to live last January. Doctors diagnosed a lump on the tot's left cheek as a malignant tumor. The time limit has passed and a new treatment seems to be making the lump smaller and considerably softer.

.e term "apothecary" .sed in the United States, Scotland and Europe to mean druggist, but it is used in England to mean physician

Advises Today's Bridegroom To Drive Good Bargain For Dowry

To the poor man's philosopher:

"Dear Sir,

"I am 25 years old. I will become a June bridegroom the last day of the month. As this is my first marriage, I am anxious to make a good impression. Is there anything I ought to know? Should I look for a job now—or later?"

Bashful

★

Your anxiety is quite natural, Bashful. But you must calm yourself, my boy. After all you soon will be worrying for two, and that takes strength.

You show a lot of character in your desire to make a good impression at your first wedding. So many boys these days go into marriage thoughtlessly—they just take it as another light-hearted adventure. Sometimes I wonder what the world is coming to, or has it?

Yes, there are many things you ought to know. A wedding is indeed a serious matter, but if it is prepared for properly there is no reason why it can't be fun for everybody.

Naturally, my boy, there are a few business details to be straightened out. And it is better that they be arranged in advance so, that there will be no hard feelings afterward.

The first thing, of course, is the dowry. You simply mustn't let any affection for your bride influence you in this important matter. More and more parents are finding themselves with daughters on their hands these days, and a good man is getting harder to find. So drive a fair but sharp bargain.

Many fathers - in - law still dislike making cash settlements, and it is perhaps wise to respect this old-fashioned prejudice. However, if your bride's dad is any man at all he probably will be only too glad to present you and his daughter with a newly - furnished apartment, rent - paid for three years. If he isn't able to buy you a new car, too, be big about it—take his old car.

Now there is the matter of the wedding itself. Too much stress has been laid on the importance of the ring. After all it is only a symbol. Buy a simple ring. Just be sure the gold won't wear off it until at least three days after the ceremony.

What to wear? My boy, they probably wouldn't notice what you were wearing if you showed up in bathing trunks. Don't do it, however— even as a gag. Better arrive in a neat blue serge, freshly pressed if possible. And it is still in good taste — no matter how hot the day— to wear a necktie, preferably one with no hula girls painted on it.

Authorities differ as to whether you should invite your old girl friends to the ceremony. For my part I believe you should. The sight of, say, half a dozen of your ex-flames weeping in despair will give your bride a feeling of quiet victory. And, after all, she is the one you want to make happy.

But once she has said "I do" you must begin at once teaching her how two can live as cheaply as — two. Give her a little lesson in thrift. When the guests shower you with old shoes, pick up a pair and murmur, "Hmmmm, my size." And scrape up a few handfuls of rice from the pavement and stuff them in your pockets. If she's really your little canary, she'll cook the rice — and keep right on chriping.

There is one last thing, my boy — that matter of a job. Just before you drive off in your father - in - law's car, it might be wise to suggest that he start looking at once for employment for you.

It is a sad time for fathers when they lose their daughters, and this task will reassure the old man there is still something for him to do in the world — while you're enjoying your honeymoon, as a June bridegroom should.

And take your bride along, too, my boy, she'll be grateful forever for this little touch of thoughtfulness.

Nine School Jobs Open In City, County

4,200 Teachers Needed In Ohio

Mansfield and Richland schools are in need of nine teachers to fill out their quotas, County Supt Boyd Robinson, and city Supt. W. L. Miller, reported today.

A survey by the Ohio Education association just completed shows that school superintendents are seeking to hire about 4,200 teachers in the state.

The county school openings are for music teachers for the Bellville, Lexington, and Shiloh schools, and for home economics teachers for the same schools.

In Shiloh a first or second grade teacher is also needed.

There are two openings in the Mansfield schools. On the Junior high school level a mathematics teacher is needed and in the elementary level a second grade teacher.

Robinson said that for some time there has been an increasing shortage of teachers on the grade school level. He pointed out that fewer persons are training for the grade school teaching jobs because in the past they were the lowest paying in the profession. He said the situation can be corrected by paying higher salaries to the elementary grade teachers.

Robinson emphasized that the first few grades are "most important" toward development of youngsters' attitudes toward school for the rest of their school lives.

The OEA's report says the problem of securing sufficient numbers of trained teachers for the state's 1,148,900 public school children will be eased if a bill to increase teacher salaries $25 per month is passed in the Ohio legislature.

The increase would raise Ohio to 10th place in the nation in teacher salaries. Sixteen other states now pay higher salaries to teachers.

The report shows further that in the state 1,900 teachers are needed for replacement in county schools as compared with about 775 in city schools.

THREE OF A KIND TWICE—St. Peter's hospital in New Brunswick, N. J., hit the jackpot with two sets of triplets among the four deliveries performed in one day. Odds against two sets were figured as about 47,000,000 to one. Above, Mrs. Robert Brill, left, of Milltown, N. J., and Mrs. George Madak of Manville, N. J., display their six girls while their respective husbands look on. (AP Wirephoto)

Dies After Long Illness

Mrs. Mary A. Rice, 74, wife of Walter F. Rice sr., 179 East First street, died at Mansfield General hospital Wednesday evening, following an illness of one year.

Mrs. Rice was born in Bellefonte, Pa., Aug. 31, 1874, and came to Mansfield 10 years ago.

She is survived by her husband, three sons, Amos Rice of Stubenville, Walter F. Rice jr and David Wayne Rice, both of Mansfield; two daughters, Mrs Paul Rippie of Akron and Mrs R. H. Monday of Pleasantville, Pa, several sisters and brothers; 12 grandchildren; and two great grandchildren.

Funeral services will be held at the Wappner funeral home at 1:30 p. m. Saturday. Burial will be in Mansfield cemetery. Friends may call at the funeral home starting Friday.

Lingering Illness Results In Death

Jacob Losh, 75, died this morning at the Richland County Home after a lingering illness. There are no known survivors.

Rev. John G. Gensel, pastor of St. Paul's Lutheran church, will conduct funeral services at the Wappner funeral home at 10 a. m. Friday. Burial will be in Mansfield cemetery.

Auto Safety Check To Begin Friday

Mansfield police and state highway patrolmen Friday will begin their annual safety check of automobiles.

The safety check will be held from July 1 to July 31, Police Chief Jesse J. Schwab, coordinator for Richland and Ashland counties, announced.

As in past years, police and patrolmen will set up check stations at undisclosed spots throughout Richland and Ashland counties.

Last year Mansfield police checked 916 automobiles and found 173 with obvious defects.

The most frequent defect was lights. Seventy-nine automobiles were found with defective stoplights. There were 31 cars with defective taillights and 22 cars with defective headlights.

Insufficient brakes accounted for 18 warning tickets issued by Mansfield police.

When police find a car with a defect, a warning ticket is issued and the driver has 48 hours to have the condition corrected.

After a car passes the safety examination a sticker is placed on the windshield so the owner will not have to submit to a second check.

Brakes, horns, lights, windshield wipers, steering and tires are examined in the check designed to eliminate traffic accidents resulting from defective vehicles.

Last year Ohio police and state highway patrol checked 622,705 vehicles and 114,857 were found to be defective, Chief Schwab said.

Fined, Loses Driver Rights

Berthel E. Griffith, of 7 Grandview avenue admitted leaving the secen of an accident and was fined $75 and costs and his right to drive was suspended six months, when he appeared in municipal traffic court yesterday.

Judge H. H. Schettler suspended $50 of the fine on the condition Griffith pay for damages to the automobile owned by Martin Weissgarber, of 338 Second avenue.

Police said Griffith's car struck Weissgarber's automobile when it was parked at the curb at 518 North Bowman street last Sunday at approximately 10:30 p. m. He failed to stop after the accident, police said.

Damage to Weissgarber's car was estimated at $45.

Police Hold Two Youths

Two teen-age youths are being held in city jail for investigation today after they were picked up by police.

A 15-year-old Wayne street boy was picked up by police near the Pennsylvania railroad tracks at the subway at Park avenue east at 7:15 p. m. yesterday. The boy's mother had reported to police the youth was trying to leave town by hitching a ride on a train.

Police found the boy as he was waiting for a freight train. He is being held for investigation in connection with the theft of a motor bike.

A 17 - year - old East Fourth street boy was picked up at his home at 5 a. m. today and is being held in city jail for investigation. He recently was fined $25 and costs in juvenile court when he was found guilty of turning in a false alarm.

Death Takes James Light

James B. Light, 64, of 86 East Fourth street, died at Shelby Memorial hospital Wednesday evening, following a brief illness. Mr. Light was born in Willard township, near Olivesburg, Aug. 22, 1884, the son of James and Amelia Osier Light.

He was a retired horse trader. As a trader, he traveled all over the United States before retiring. His only survivors are cousins.

Rev. Samuel U. J. Peard, rector of Grace Episcopal church, will conduct funeral services at the Finefrock funeral home at 3 p. m. Friday. Burial will be in Mansfield cemetery.

HOLD UP FOOD TRUCKS

BERLIN — (INS) — Soviet guards were reported today to have held up 81 to 85 food trucks from western Germany on the outskirts of Berlin.

Seeks Case Dismissal

Prepares Motion On Raid Suspects

A motion for dismissal of charges against seven persons involved in a raid on an alleged house of prostitution at 97 East Sixth street last March 26 was being prepared today by City Solicitor C. J. Kalbfleisch.

Kalbfleisch gave reason for the dismissal motion as lack of prosecution.

The motion asks for dismissal of charges against Sterling Scarborough, 56, East Sixth street; William Avery, alias William Eans, 274 North Franklin avenue; Patricia Williams, Judy Williams, James Schoolfield, and Mary Schoolfield, all of 97 East Sixth.

Thomas J. Scott, 102 High street, Ashland, who filed charges against Scarborough and Eans, has disappeared since signing the affidavits, Kalbfleisch said. Scott had charged both Scarborough and Eans with assault and battery.

Scarborough also was charged as being a keeper of a house of prostitution and Eans with loitering in a house of ill fame. The Williams women were charged with engaging in prostitution and the Schoolfields with residing in a house of prostitution. All these charges were filed by Police Capt. E. E. Hartnett.

Lightning Bolt Strikes Chimney

Lightning struck the chimney at the home of Mr. and Mrs. D. F. McMiller, of 352 South Diamond street, at 2:40 p. m. yesterday.

Firemen from Central and No 3 stations went to the home, but there was no fire

Mrs. McMillen, who was in the basement of the house when the lightning hit, said "it made an awful noise and almost knocked me out."

The extent of the damage to the chimney has not been determined, she said.

COOLING OFF —

The old-fashioned metal tubs used on wash day before stationary tubs became a feature of most modern homes are being put to a new use these hot days. The tubs have been brought out of basements and attics to make miniature backyard swimming pools for Mansfield youngsters. Dressed in scanty bathing suits, the younger set is spending the hot afternoons splashing in the tubs of water. Some of the more ingenious have hung garden hoses over clothes lines so the youngsters can enjoy an artificial shower as they play in the tubs.

★

MEN WANTED—

It may be the hot weather or interferring vacations or some other reason, but cancer clinic officials are noticing a decided lag of attendance during men's nights at the clinic Dr Harry Wain, city-county health commissioner, today urged that more men call for appointments at the clinic, as they are just as susceptible to the disease as women. There's no waiting line now, Dr. Wain says, and any Richland county man may get an immediate appointment at the clinic by calling the clinic, 2291-6.

Action Ordered By PUCO

Report Now Being Prepared

An open public hearing will be held on the Mansfield Telephone company's application for a rates increase filed with the Public Utilities Commission of Ohio, George S. Fink, administrative assistant of the commission, said yesterday.

The application is under study by the commission's engineering and accounting departments and at the completion of the study a report to the commission will be prepared, Fink said.

When the secretary's report is submitted to the commission, copies will be mailed to the mayor of Mansfield and the prosecuting attorney of Richland county, as required by law, Fink said.

No action will be taken for a period of 30 days, during which time protests may be filed by any interested party.

Dates for an open public hearing will be set after that 30-day period, he added.

Protests received before the secretary's report is made, are filed and made a part of the case, Fink said

The PUCO official refused to estimate the time that will be required to complete the study of the application.

When asked if it would take one, two or three months, Fink said "it might take as long as six months, we just can't tell at this time."

He said several other rate increase applications are under study by the commission.

Meanwhile, Nelson Swihart, chairman of the Mansfield city council utilities committee, said the committee would meet "probably today" to draft a resolution voicing city council protest to application.

An attempt will be made, Swihart said, to bring the resolution before council at the July 6 meeting.

Council's opposition to the application is based on poor service given by the telephone company, Swihart has indicated.

Meanwhile, Madison Township Farm Bureau representatives are getting sworn statements claiming poor service by the telephone company.

Boy, 8, Struck By Automobile

Eight-year-old William Fisher, 7 Arnold avenue, suffered minor injuries yesterday when struck by a car driven by William Walter Fry, 24, Mansfield, R. D. 1.

The accident occurred on Springmill street as the child ran from the west side of the street. Fry said he didn't see the boy until he was almost in front of him.

The boy suffered four cuts on the face and road burns on his left hip. He was treated at General hospital.

Witness Jailed On Drug Charge

CLEVELAND — (INS) — The state plans to call Fletcher Hudson as a witness in the Willie Hoge - Arthur Drake extortion trial in Cleveland although Hudson has been arrested by Lorain police on a charge of possessing marijuana.

Assistant Cuyahoga county Prosecutor Victor DeMarco late yesterday called Hudson's arrest "a deliberate frameup" and said "it may be a planned attempt to discredit or intimidate him."

Burglary of Inn Probed By Sheriff

Burglary of the Carroll Inn, on U S. Route 30-S near Ontario yesterday is being investigated by Sheriff E. P. Long.

Deputies were informed by Carroll Blanner, proprietor, the thieves broke in through a rear door. The loot included four bottles of whisky, two cartons of cigarets, a .22 caliber pistol, three bottles of wine, $30 from the juke box and $3 from the kitchen.

Two Youths Drown

Senate Prepares To Scuttle Labor Bill

WASHINGTON — (UP) — The Senate lined up today to scuttle the administration labor bill by writing most of the Taft-Hartley law's provisions into it.

Once - beaten administration forces already had abandoned hope of stopping the bloc led by Sen. Robert A. Taft, R., O., which wants to keep most of the Taft-Hartley law in force.

Mansfield Landlords Slow In Asking For Rent Boosts

"Not many Mansfield landlords have applied for rent increases under the new provisions relaxing rent control," Mansfield Housing Expeditor George H. Blecker said today.

Blecker is surprised that his office has not had more than the usual number of requests for rent increases, despite the fact that the new provisions allow rent increases for improvements on property.

Federal Rent Director Tighe E. Woods estimated that about a million landlords throughout the country may ask for rent increases under the new provisions. Mansfield landlords, however, have been slow to take advantage of the relaxed controls, Blecker indicated.

Blecker will leave for Cleveland Friday for a meeting of regional rent directors to discuss the new provisions.

$6 Million Fund Boost Approved

House Group Amends Bill

COLUMBUS — (INS) — The House Taxation committee yesterday approved a flat six million dollar increase in the local government fund.

The committee amended a Senate approved bill which would have earmarked 15 per cent of sales tax collections for local governments by increasing the flat amount from 12 million to 18 million dollars a year.

The net result, however, will be approximately the same, since the 15 per cent would have yielded somewhere between 18 and 19 million dollars.

The committee failed by a single vote to recommend for passage the other half of the so-called "Youngstown plan" which would have switched the 15 millions a year collected in intangivles taxes to the local government fund for distribution on the same percentage formula. At present such taxes on bank deposits are returned to the counties of origin.

Vote on this bill was 11 to 7 with 12 votes needed.

Six of the seven who voted against the bill were from rural counties. Thirty-one of the smaller counties would receive less money under the proposal.

The increase in the local-government fund would be financed by a markup in retail liquor profits from 30 to 40 per cent and in wholesale profits from 15 to 20 per cent, both figured before federal taxes.

A measure to accomplish this was given a first hearing today by the Senate taxation committee and then shunted to the Senate liquor control committee for further study.

Would Penetrate Iron Curtain

Ohio Girl Prepares For Foreign Jobs

WASHINGTON — (AP) — A slim little miss from Ohio, chosen to be one of 19 women in the U S Foreign service, wants to get inside the iron curtain — but not too far inside.

Patricia M. Byrne told newsmen she hopes to be assigned to Prague, Czechoslovakia, or anywhere else in eastern Europe except Russia.

"I wouldn't like the restricting kind of life there," she said, "although, of coursee, I'd go nywhere the state department sent me. In Prague there's an opportunity for a meeting of east and west, and I'd enjoy working there."

There may be obstacles to getting the job she wants. But she never has paid much heed to obstacles. A slight limp hasn't bother her, nor much of anything else.

From riveter to diplomatic service is a long step, especially for a girl, but Patricia is making it.

She spent two summer "vacations" from college as a riveter in a Cleveland warplane factory and another assembling gun parts there.

"I'm a good worker," she said

A light girl with a friendly grin, she got her appointment the hard way — by competitive examination against men and women contestants from all over the country.

Senate confirmation of the appointment is expected any day now, and will mean realization of an ambition she has had since she was 13.

Her father, Edward F. Byrne, of Cleveland, has encouraged her ambitions.

"My father taught us to be independent, and to do what we wanted to do — to go after what we wanted," she said.

Her studies, she said, were shaped toward a foreign service job. She learned French and Spanish, and a little of the Russian languages.

She stood second in her class in high school in Cleveland, and was an honor graduate from Vassar. On a Vassar fellowship she won her master's degree at the school for advanced international studies here.

She has been employed with the Central Intelligence agency here since, but says its employes are forbidden to describe their work.

Patricia says she hasn't the slightest idea what kind of job she will have in the foreign service. That and the place of assignment will be learned when she attends the special school for new members of the diplomatic service to study language, international relations, protocol,

Jet-Propelled Squid Finds Top Billing In Dining Rooms

MONTEREY, Cal. —(AP)— To most people it's just a wriggly horror, but the long-armed squid is landing on more and more domestic dining room tables.

The jet-propelled relative to the lowly clam long has been caught commercially here for use as bait and for sale as food to foreign and local markets. Recently, though, dealers report nation-wide sales have increased

One possible reason for the increased use is the cheapness. about 15 cents a pound.

Most of the squid caught here are small, but once in a while fishermen find a giant in their nets. One squid measures more than 11 feet from tip of tentacle to tip of tentacle.

The squid, frequently confused with the octopus, has a narrow body, eight arms and two long tentacles. The two tentacles, equipped with suction discs to lock them together and studded with swiveled hooks, are used to seize passing fish for food.

The arms take the food from the tentacles, draw it up under the body and there the squid tears the food apart with its parrot-like beak.

It propels itself by drawing water in through openings back of its head, then expelling the water through a small tube The tube may be pointed in different directions, controlling the direction of travel.

If you think all coffee tastes pretty much alike, you'll get a surprise that will open your eyes when you try A & P Coffee . . . iced or hot! For there's a difference in its flavor . . . a difference so big that this coffee is preferred by more people than any other coffee. You see, many of these other coffees are factory-ground days or weeks before they're sold. But A & P Coffee is never ground until you buy it. Then it's Custom Ground to one of seven different grinds . . . not just two or three as in most other coffees. That means your coffee is as flavorful when you drink it as it is fresh when you buy it, because it's ground just exactly right for best results in your coffeemaker. Try A & P Coffee today! Taste the difference! You'll see at a sip why it's America's No. 1 favorite.

Customers' Corner

Thank you for your suggestions!

Thousands of our customers have been kind enough to write us letters telling us just what they like and don't like about their A&P stores.

Every one of the letters received has been carefully studied. Many of them have contained helpful suggestions as to how we can make A&P stores better places to shop; and every one of them has helped us learn the kind of food and service our customers want.

So thanks to all our good friends; and please keep the letters coming!

Reds Continue to Fill Army With Chinese

Enlist Men To Aid In Propaganda

Screen Nationalist Troops For Aides

NANKING —(AP)— The Chinese communist army totals more than 3,000,000 men and is still rapidly growing, although the need for large-scale fighting seems almost over

Thousands of surrendered nationalist troops are being "screened" for absorption into the communist army. Those selected are mainly younger men. They get indoctrination courses before being sent into the Red ranks. Older nationalist souldiers generally are not wanted and are sent home.

Only about half the present communist force is estimated as needed for the remaining campaigns in south and west China. The other half already is doing police, labor, adminstrative and propaganda work.

Both military and political observers see the army as having a peacetime mission of consolidating the communist victory. It is viewed as both a political cadre for mass indoctrination of the people, and as a police force to back up the communist program.

In the Chinese Red army political training and control begin on the company level, where an especially assigned officer lives with the men.

It extends up through successive echelons to the field army, where the communist political officer is second in command

The communist soldier is always at school. His political officer keeps him informed, during both training and combat, of the social importance of his acts.

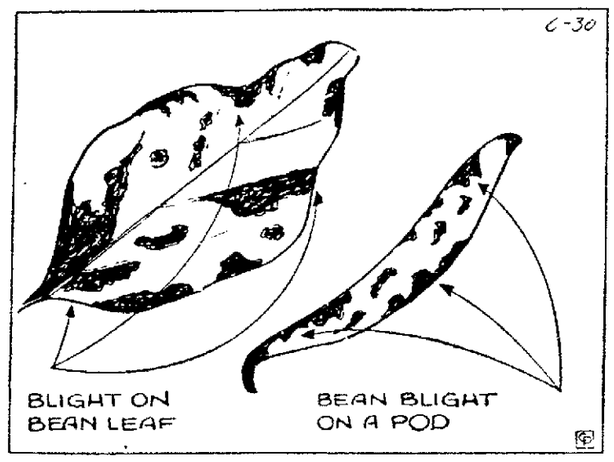
Songs with political themes and pamphlets written by communist leaders are carried in the soldier's pack, as much a part of his field equipment as weapon or uniform. At army schools, political and military education are inseparable

The soldier is instructed to help the political workers who move in with the army in the work of indoctrinating the public. He is told to win the people over by exemplary personal conduct as well as through organized propaganda activities. Propaganda units, usually including women, march right with the troops.

With such a vast country to police and with more than 450,000,000 Chinese to organize politically, military observers predict the communists will probably support a militia and regular army of about 5,000,000

Communist leaders have said that the building of a truly modern army will have to wait on industrialization of the country. Meanwhile, however, if present practices continue, the army will also be a useful labor and administrative machine.

Such a large army would not be as great a drain on the country as might appear Pay is less that one-tenth of the military budget now. The big costs of war materiel should end with peace, the left-over equipment being adequate for ordinary policing duties



Today's Garden Graph

Carelessness Spreads Blight

By DEAN HALLIDAY
Central Press Association

"Watch your step" is good advise to the home gardener who doesn't want to be an accomplice in spreading blight among beans

Carefulness to prevent the spread of bean blight includes never working among them when they are wet with dew or rain This advice goes for picking as well as cultivating, or for that matter, even walking through the rows of beans when they are wet. Otherwise one is apt to help spread disease from one plant to another

Bean blight is a bacterial disease which causes irregular shaped blotches on the leaves, as illustrated in the accompanying Garden-Graph. These at first have a water - soaked appearance, later the blotches become brown and brittle. The disease spots usually have pale yellow borders

The blight also attacks the stems of bean plants and causes red cankers which often weaken the plant with the result that they break during storms. The disease also causes watery-looking pustules to appear on the pods, as illustrated. These soon enlarge and take on a rusty blotchy appearance.

Bean blight is carried in the seed and the first plants showing any of the above mentioned symptoms should be pulled and burned.

As a safety first measure, do not grow beans in the same soil the second year, but rotate the crop.

It is hoped that as new varieties of beans are introduced they will be disease free, but until then the wise gardener will plant only the more resistant types.

The word "apron" was originally 'napron' and was corrupted from 'a napron" to "an apron".

Claims He'll Not Be Stoolie For Probers of Communism

WASHINGTON — (INS) — A Washington salesman refused yesterday on grounds of possible self - incrimination to answer questions by House spy probers concerning communist activities in the nation's capital.

The salesman, James Branca, was the fourth witness in two days to defy the House un-American Activities committee by declining to reply to queries on communism in Washington.

Branca defiantly told the House group he refused "to be used as a stool pigeon by this committee." The flare - up came when Branca was asked if he knew Mrs. Rose Anderson a witness before the committee Tuesday.

Later, when asked if he had ever held communist party meetings in his home, Branca said again that he refused "to become a stool pigeon for the committee."

Committee Chairman Wood (D) Ga., pointed out that he did not think either the "stool pigeon" or self-incrimination grounds was a "legitimate" reason for Branca refusing to answer. Wood added

"I know of no statute which would penalize anyone for having a communist party meeting in his home or for knowing certain people."

Branca then was asked whether he is a member of the communist party. He replied:

"I refuse to answer on the grounds that it may incriminate me."

Ed Percy Wins County Golf Championship

Jim Hager Takes 2nd; 25 Compete

By CHARLEY STINE

Ed Percy, a slight-build 125-pounder who by his own admission wasn't good enough to make the Senior high school golf team, yesterday putted his way to the championship of Richland county's first junior tournament.

Playing on his home Coolridge course, Percy fired a 38-35—73 to go only five strokes over par for the 18-hole route. The 17-year-old hit his woods and irons straight all day but it was his putting that paid off. He had only 12 putts on the second nine and 15 on the first.

Par	433	543	444—34
Percy—out	534	544	355—38
In	533	543	444—35-38—73
Hoger—out	543	544	544—39
In	543	353	444—35-39—74

One stroke behind with a 39-35—74 was Jimmy Hager, 16-year-old Westbrook caddy who was the number one man on the Senior high team on which Percy was a sub. Hager had a three-putt green on each nine, but almost made up the difference on the last hole.

With Percy already in, Hager laid 35 feet from the pin on the last hole needing the birdie putt to tie. He clipped the ball pin high, but two inches to the right to give Percy the title.

The tiny Coolridge star finished with eight straight pars after bogeying the first hole of the second round. He had five bogeys and one birdie the first nine, never taking a double bogey the entire day.

BEST OF YEAR

"That last round was the best I've been hitting all year," was the icy-nerved little fellow's only comment as he came off the last green. His only previous winning had been the fourth flight of the club tournament last year. He carried a 44.8 average then in his second year of play.

For the title Percy won the championship trophy donated by Coolridge and a wrist watch. Hager got a new pair of shoes for second place.

Charles Vanlik, another Westbrook caddy, came in third with a 78 and also got a pair of shoes. Bud Baith and Tom Wilkinson, who tied for fourth with 80, got a half-dozen balls and a sport shirt, respectively. Wilkinson is from Shelby.

Other prizes of balls and shirts went to Larry Inscore, sixth with 82, Dean Hahn, seventh with 83, and Bob Scadova, Jack Boreman, and Ed Thomas, tied for eighth with 84.

Percy wore a beat-up red ballcap which he almost left home for fear it didn't look good enough.

"I decided I'd better wear it anyway he said. "I always play in it and it brings me good luck."

"KIDS" GET AWARDS—Ed Percy receives the Richland county junior golf championship trophy from Bill Mercer, secretary of the County Golf association. Left to right, Mercer, Percy, Dale Rose, county association treasurer; Jimmy Hager, tourney runner-up, and Ed Blonston, association vice-president. (News-Journal Staff Photo).

Joe DiMaggio Helps Yanks To 9-7 Win; Crippled Clipper Socks Two Home Runs

By JACK HAND
(Associated Press Sports Writer)

The same old Joe DiMaggio!

Three home runs in two days, six runs batted in and a .500 batting average. That's the stuff that made a $90,000 salary.

The mourners who shed a tear for the poor New York Yankees and their fat paychecks for a crippled star, can toss the crying towel in the wet wash. The Yanks are getting their money's worth from Joe. D.

DiMag's ailing heel may slice a few yards off his private acre in center field but he's still Mr. Big with the bat. Ten weeks of fretting in street clothes while his mates led the American league didn't dull his batting eye — at least not in Boston.

Big Joe electrified a giant-sized Tuesday night crowd with a homer and single in his first league appearance since he limped off that same Boston field last October.

That was only the beginning. Yesterday he hammered two homers, one with two men on base, drove in four runs and personally accounted for the Yanks' 9-7 edge over the Red Sox.

This was the big series for the Sox. Rolling fast at home they had climbed to within five games of the Yanks. A series sweep and they would have been up there knocking on the door. Instead they trail the Yanks by seven games and are back in the second division. Joe D. is the man responsible.

BACK IN GAME

DiMag boosted the Yanks back in the game after Boston clubbed wild Tommy Byrne from the hill in the four-run first inning. Joe's homer with two men on off Ellis Kinder left the sox with a 7-4 lead in the fifth.

After Gene Woodling's double with the bases loaded tied the score in the seventh, DiMaggio hit his game-winning blow off loser Earl Johnson with the bases empty in the eighth.

Cleveland averted disaster with a six-run rally in the last of the ninth inning to down Detroit 8-7 in a night game after they were shutout 4-0 by Hal Newhouser in the twilight opener of a double-header.

Carl Scheib finally got himself untracked, breaking a six-game losing streak with a 7-4 edge for Philadelphia over Washington. The result kept the second place A's, 4½ games behind the Yanks.

Ned Garver edged Walt Pierce in a tight duel as the St. Louis Browns knocked off the Chicago White Sox, 1-0. Dick Kokos' eighth-inning single broke the scoreless tie.

Brooklyn and St Louis kept in step in the hot national league chase as the Dodgers protected their one-game margin by defeating the Phillies, 5-1. The Cards clung to their heels by bouncing Chicago 7-4.

BRANCA WINS TENTH

Ralph Branca let down the Phils with five hits to hit the 10 win mark, first to do the trick in the national. Curt Simmons gave up all five Dodger scores before a capacity crowd of 36,814, largest Phil crowd of the year.

Ralph Kiner had a big day for Pittsburgh with a double and a bases loaded home run in their 7-3 romp over Cincinnati. It was Kiner's second grand slam clout of the year, both against the Reds, and the fourth of his big league career.

Larry Jensen elbowed the New York Giants past Boston 9-3 with the help of sloppy infield play by the Braves.

Two Unbeaten Teams Collide

A pair of undefeated teams — Park Avenue Baptist and First Congregational — will meet in tonight's feature Church softball league game at the Farm Tools field.

The Baptists have won five straight while First Congregational has four wins in a row. Third-place First Methodist battles United Brethren at Prospect park.

Other games: First Presbyterian vs Four Square Gospel at Liberty park and First Christian vs St. Paul's at Johns park.

Arntz Tops Richland County Rifle League

L. Arntz fired a pair of 199's to pace the Richland Outdoor Rifle league on the Gasco range last night.

H. Ferguson trailed by two shots with a 396 while J. Myers had a 394. Winners were Arntz and C. Frieg, J. Myers and O. Frantz and D. Hassinger and R. Harbaugh.

Percy Gets a Hug For Winning

One of the happiest persons at the Richland county junior tournament yesterday was Mrs. Fred Huntsman sr, wife of the Coolridge club manager. The winner, Ed Percy, is a Coolridge player, Fred Huntsman jr, was caddying for Percy and the "champ" played the round with Fred sr's old clubs, bought from him last year.

Needless to say Percy got a big hug of congratulations when he walked off the ninth green.

Fred jr., the only "pro" caddy of the tournament, said "This was one time the caddy picked the player. I knew he was going to win and wanted to be on the right horse."

Young Huntsman has already agreed to caddy for Ed if he goes to the National Junior qualifier next month.

★

The tournament was one of the most colorful ever seen on local links with the "oldsters" doing the caddying and young friends of the competitors forming the gallery to root their favorites home.

Among the caddies were Dale Rose (Bud Baith), Carl Wiseman (Larry Inscore) and Jim LeMunyon sr. (Jim Hager). Others toting bags included Fritz Schnerer and Jimmy Lymper.

★

The cards of the two leaders, Percy and Hager, will make many a golfer look with envy. Not a single six was on either.

Percy took the par five fourth hole in par both times and Hager had a par and an eagle. He hit on the green in two and one-putted for the only eagle of the day.

Neither had a double bogey.

The outfits worn by the boys differed as much as the size of their scores which ranged all the way from 73 to 114.

Hager was probably the flashiest in a striped tee shirt and speckled cap. A great many played with baseball caps and overalls and it was from this class that many of the better shots came. Many had no spiked shoes and some even had borrowed clubs.

Mansfield Legion Team Defeats Plymouth

Dave Hardy Tosses Six-Hit Win, 2 To 1

Mansfield's American Legion juniors drew first blood in the Richland county baseball championship playoff with Plymouth by winning a 2-1 ten-inning decision at Blue Goose park last night.

The two teams meet again at 5 p. m. today at Shelby with Mansfield having a chance to annex the county title. A victory for Plymouth would necessitate another game tomorrow.

Ed Chelski came through with a single with Jake Schmidt on third base in the last half of the tenth to win yesterday's contest. Schmidt had walked, stolen second and been sacrificed to third by Norm Hughes.

Mansfielder Dave Hardy tossed a beautiful six-hit hurling job at Plymouth after being tagged for the only run in the first inning on a double by Larry Schreck and single by Witchie. Hardy walked only one man and struck out 12.

Catcher Kenny McCally tied the game in the last half of the second when he drove the first ball pitched over the right field fence

Gorman-Rupp Bops Willard Elks, 13 To 0

Mansfield Gorman-Rupp flashed its best form of the softball season last night in smashing the Willard Elks, 13 to 0, at the Pumpers home field.

Bobby Regula, the rifle-armed pitching star, had a terrific "hop" on his fast ball to limit Willard to two hits over the nine-inning route Regula struck out 12 and walked only three as his mates scored at will off two Willard pitchers.

SMITH KNOCKED OUT

The Pumpers wasted little time in taking care of their old nemesis—Pitcher Jimmy Smith. Smith had beaten Gorman-Rupp once before this season, 1 to 0, but had little to say last night. Five walks aided in Smith's downfall as Mansfield counted two runs in the first and three in the second to clinch the result.

Al Baki, Pete Campbell and Regula had triples to pace the eight-hit Pumper attack.

Gorman-Rupp plays the Ashland Indians here tomorrow night at 8:30.

American Gal Netters Star At Wimbledon

LONDON—(AP)—The supremacy of America's women tennis players is evidenced by the fact that all four semifinals contestants in today's matches represent the United States.

Ted Schroeder of La Crescenta, Calif., top-seeded among the men and America's only survivor in the male competition, struggled to one of his typical marathon victories yesterday in gaining a semifinals triumph over South Africa's Eric Sturgess, and today the U. S girls figure to pick up where Ted left off.

Defending champion Louise Brough of Beverly Hills, Calif., opposes Mrs Pat Todd, La Jolla, Calif., while Mrs. Margaret Osborne duPont of Bellevue, Del., faces Mrs. Helen Rihbany of Boston

Schroeder and Jaroslav Drobny, the Czechoslovakian ace, will clash Friday in the men's final

Ted pulled his specialty yesterday, outlasting a tired Sturgess, 3-6, 7-5, 5-7, 6-1, 6-2.

Charles Gets Fight Offer

JERSEY CITY, N. J. — (INS) — Ezzard Charles, heavyweight champion of the National Boxing association, today was offered $100,000 to lay his title on the line in a match with the veteran Pat Comiskey.

The offer was made by Jersey City promoter Frank Paula on behalf of a local group of businessmen.

Paula suggested Roosevelt stadium in Jersey City and Thursday night, Sept. 22, as the site and date of the proposed bout. He said he will post the $100,000 check with NBA commissioner Abe J. Greene.

Comiskey, who makes his home in Paterson, N. J., has been fighting professionally for 11 years.

Ted Williams In Poll Lead

CHICAGO — (AP) — Ted Williams, Boston Red Sox slugging outfielder, held the individual vote getting honors today as workers continued to tabulate returns in the all-star poll which closed last midnight.

Final returns of the poll, which will decide the starting lineups for the national and American leagues in the 16th annual all-star game in Brooklyn July 12, will be announced later.

Williams currently holds an advantage of 115,512 over Jackie Robinson, Brooklyn's negro second baseman and National league batting star. Williams has 1,746-896 votes to Robinson's 1,631,384.

Heavy 'Title' Go Set For London

LONDON — (UP) — London fight fans received assurances today that the Bruce Woodcock-Lee Savold fight for the British version of the world's heavyweight championship will be staged at White City stadium, Sept. 6.

Promoter Jack Solomons changed his mind about transferring the fight to the U. S. when it was learned that London authorities were considering a plan to increase the capacity of the London stadium from 46,000 to 60,000.

400 Horses Set For Little Grand Racing

MARION — Between 400 and 450 horses are being readied for the start of Marion's 1949 Little Grand Circuit harness races which begin Monday, July 4th, and continue through July 23.

Frank M. Foster, vice-president of the Marion Matinee Club and general manager of the Little Grand Circuit, reports the overflow will be accommodated at neighboring tracks. Some of the standard breds will be quartered at Mt. Gilead, Richwood, Delaware and Ashley and brought to Marion only on the days they are scheduled to race.

Of the more than 400 horses expected here, nearly 160 are scheduled to appear in one or more of the 18 stakes which spice the prolonged sulky season.

Horsemen will vie for more than $70,000 in purses during the 19-session stand. Of this amount, $18,000 will be in the form of stakes and approximately $53,000 in overnight purses.

There will be eight races at every session and all racing, except the Fourth of July afternoon opener, will be at night. For the gala Independence Day opener, Foster has arranged a bulging doubleheader which is expected to draw thousands of holiday visitors to Marion.

The Little Grand, long recognized as one of the nation's standout spring meetings, will again offer all of the attractions of raceway promotion — dash racing, parimutuel betting, mobile starting gate, photo-finish results and all the other trimmings of harness racing's big wheel.

Jim Hegarty Wins Driving Contest

Westbrook won the driving contest staged at the Richland Driving range last night as Jim Hegarty and team-mates Carl Wiseman and Bob Moorhead split a dozen balls as the prize booty.

Jim Musille brought Coolridge in second with a 290-yard drive while Ted Etzel had the best drive for Possum Run. Joe Mayer and Pete Thoma also competed for Coolridge and Bernie Mathias and Red Dillon for Possum Run.

Joe Wells Wins Seniors Tourney

RYE, N. Y. — (UP) — Sixty-year-old Joseph M. Wells of Newell, W. Va., shot a 75 at the Apawamis country club yesterday to win the national senior golf championship with a score of 145 for 36 holes.

Wells, playing in the tournament for the sixth time, won by three strokes over Brackett B. Fernald of Providence, R. I.

Game Rained Out

The Penn Auto-Sporting Goods baseball game last night with the Lexington Merchants at Lexington was rained out.

GI Cashes In On Pacific Isle Jewelry

LYONS, KAN. —(UP)— Those war years are paying dividends now for Thomas L. Davis.

Davis spent some time on Manos Island. He looked for souvenirs to send home but decided he could make better stuff than the natives.

So, with metal from ammunition boxes and island mother-of-pearl, Davis fashioned a pearly inlay bracelet. His tools were a file, tin snips and a nail.

His buddies admired his work so much they asked him to turn out souvenirs for them, too.

When he returned to his home town, he set up a shop and invented dies and machines to mass produce the articles he's made on Manos. He imports mother-of-pearl from Tahiti and combines it with either stainless steel, yellow, rose or white gold to produce jewelry of unusual simplicity and beauty.

Now his shop is turning out thousands of bracelets, watchbands and key chains.
